### Intersection Summary

Area Type: Other

Cycle Length: 160

Actuated Cycle Length: 160

Offset: 0 (0%), Referenced to phase 2:NBTL and 6:SBTL, Start of Green

Natural Cycle: 90

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 0.99

Intersection Signal Delay: 48.6

Intersection LOS: D

Intersection Capacity Utilization 93.1%

ICU Level of Service F

Analysis Period (min) 15

Splits and Phases: 4: GA 11 Bus & South Enota

Intersection Summary

Area Type: Other

Cycle Length: 160

Actuated Cycle Length: 160

Offset: 0 (0%), Referenced to phase 2:NBTL and 6:SBT, Start of Green

Natural Cycle: 55

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 0.85

Intersection Signal Delay: 17.7

Intersection LOS: B

Intersection Capacity Utilization 63.6%

ICU Level of Service B

Analysis Period (min) 15

Splits and Phases: 5: Green/Thompson Bridge & Holly & GA 11 Bus

### Intersection Summary

Area Type: Other

Cycle Length: 160

Actuated Cycle Length: 160

Offset: 0 (0%), Referenced to phase 2:NBTL and 6:SBTL, Start of Green

Natural Cycle: 90

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 0.93

Intersection Signal Delay: 26.7

Intersection LOS: C

Intersection Capacity Utilization 96.6%

ICU Level of Service F

Analysis Period (min) 15

Splits and Phases: 6: Green & Ridgewood/driveway

## Appendix D

### Future Intersection Operational Analysis

Thompson Bridge / Enota Convenience  
1: Thompson Bridge & Walmart/Taco Bell

Intersection Summary

Area Type: Other

Cycle Length: 160

Actuated Cycle Length: 160

Offset: 0 (0%), Referenced to phase 2:NBTL and 6:SBTL, Start of Green

Natural Cycle: 90

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 0.79

Intersection Signal Delay: 10.6

Intersection LOS: B

Intersection Capacity Utilization 73.4%

ICU Level of Service D

Analysis Period (min) 15

Splits and Phases: 1: Thompson Bridge & Walmart/Taco Bell

### Intersection Summary

Area Type: Other

Cycle Length: 160

Actuated Cycle Length: 160

Offset: 41 (26%), Referenced to phase 2:NBTL and 6:SBTL, Start of Green

Natural Cycle: 90

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 0.71

Intersection Signal Delay: 13.5

Intersection LOS: B

Intersection Capacity Utilization 72.2%

ICU Level of Service C

Analysis Period (min) 15

Splits and Phases: 2: Thompson Bridge & Enota

Thompson Bridge / Enota Convenience  
3: Riverside & Enota

### Intersection Summary

Area Type: Other

Cycle Length: 160

Actuated Cycle Length: 160

Offset: 0 (0%), Referenced to phase 2:NBTL and 6:SBTL, Start of Green

Natural Cycle: 120

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 1.05

Intersection Signal Delay: 56.4

Intersection LOS: E

Intersection Capacity Utilization 98.7%

ICU Level of Service F

Analysis Period (min) 15

Splits and Phases: 4: GA 11 Bus & South Enota

Thompson Bridge / Enota Convenience  
5: Green/Thompson Bridge & Holly & GA 11 Bus

Intersection Summary

Area Type: Other

Cycle Length: 160

Actuated Cycle Length: 160

Offset: 0 (0%), Referenced to phase 2:NBTL and 6:SBT, Start of Green

Natural Cycle: 60

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 0.87

Intersection Signal Delay: 28.0

Intersection LOS: C

Intersection Capacity Utilization 72.4%

ICU Level of Service C

Analysis Period (min) 15

Splits and Phases: 5: Green/Thompson Bridge & Holly & GA 11 Bus

### Intersection Summary

Area Type: Other

Cycle Length: 160

Actuated Cycle Length: 160

Offset: 0 (0%), Referenced to phase 2:NBTL and 6:SBTL, Start of Green

Natural Cycle: 90

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 0.89

Intersection Signal Delay: 17.3

Intersection LOS: B

Intersection Capacity Utilization 80.7%

ICU Level of Service D

Analysis Period (min) 15

Splits and Phases: 6: Green & Ridgewood/driveway

Intersection Summary

Area Type: Other

Cycle Length: 160

Actuated Cycle Length: 160

Offset: 0 (0%), Referenced to phase 2:NBTL and 6:SBTL, Start of Green

Natural Cycle: 90

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 0.77

Intersection Signal Delay: 11.8

Intersection LOS: B

Intersection Capacity Utilization 75.5%

ICU Level of Service D

Analysis Period (min) 15

Splits and Phases: 1: Thompson Bridge & Walmart/Taco Bell

### Intersection Summary

Area Type: Other

Cycle Length: 160

Actuated Cycle Length: 160

Offset: 41 (26%), Referenced to phase 2:NBTL and 6:SBTL, Start of Green

Natural Cycle: 90

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 0.98

Intersection Signal Delay: 40.6

Intersection LOS: D

Intersection Capacity Utilization 92.1%

ICU Level of Service F

Analysis Period (min) 15

Splits and Phases: 2: Thompson Bridge & Enota

Thompson Bridge / Enota Convenience  
3: Riverside & Enota

### Intersection Summary

Area Type: Other

Cycle Length: 160

Actuated Cycle Length: 160

Offset: 0 (0%), Referenced to phase 2:NBTL and 6:SBTL, Start of Green

Natural Cycle: 110

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 1.02

Intersection Signal Delay: 56.6

Intersection LOS: E

Intersection Capacity Utilization 98.1%

ICU Level of Service F

Analysis Period (min) 15

Splits and Phases: 4: GA 11 Bus & South Enota

Intersection Summary

Area Type: Other

Cycle Length: 160

Actuated Cycle Length: 160

Offset: 0 (0%), Referenced to phase 2:NBTL and 6:SBT, Start of Green

Natural Cycle: 55

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 0.85

Intersection Signal Delay: 23.3

Intersection LOS: C

Intersection Capacity Utilization 67.4%

ICU Level of Service C

Analysis Period (min) 15

Splits and Phases: 5: Green/Thompson Bridge & Holly & GA 11 Bus

### Intersection Summary

Area Type: Other

Cycle Length: 160

Actuated Cycle Length: 160

Offset: 0 (0%), Referenced to phase 2:NBTL and 6:SBTL, Start of Green

Natural Cycle: 90

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 0.99

Intersection Signal Delay: 32.3

Intersection LOS: C

Intersection Capacity Utilization 101.7%

ICU Level of Service G

Analysis Period (min) 15

Splits and Phases: 6: Green & Ridgewood/driveway

|                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |

# CITY OF GAINESVILLE

## AGENDA REQUEST

---

**Date Submitted:** 4/19/2017

**Presenter:** Matt Tate

**Item of Business:** Request from **Gainesville Market, LLC** for a special use on a 5.0± acres tract located west of Shallowford Road within the Gainesville Market Shopping Center (a/k/a **600 Shallowford Road**), having a zoning of General Business (G-B).  
Ward Number: Five  
Tax Parcel Number(s): 01-119C-001-029  
Request: Commercial outdoor recreational facility

**Meeting Date:** 5/9/2017

---

**Purpose of Request:**

The applicant is proposing a special use within General Business (G-B) zoning to allow for a commercial outdoor recreational facility to include four soccer fields (three dirt fields and one lighted concrete field). The property is located behind the Gainesville Market Shopping Center within an area that was used as a fairground and for cattle auctions many years ago. The applicant states the hours of operation are Monday thru Thursday from 4:30 P.M. to 9:30 P.M. consisting of 26 to 30 participants and 40 to 50 spectators. Saturday and Sunday hours are from 9:00 A.M. to 10:00 P.M. consisting of 60 to 70 participants and 60 to 80 spectators. Approximately 30 to 40 parking spaces are provided on site and additional parking is located within the adjacent shopping center. Bathrooms are located within the shopping center. Food items are sold during soccer events which are pre-packaged. The adjacent uses include the Army Reserve facility, Target, Gainesville Market Shopping Center, Crowder Signs, wholesale flooring business, real estate office and a single-family home.

**History/Background:**

**Facts & Issues for Consideration:**

**Department Recommendation:**

Planning staff is recommending approval with five conditions.

**Department Director:**

**STAFF RECOMMENDATION**

**Applicant and Property Owner**..... Gainesville Market, LLC  
**Location**..... 600 Shallowford Road  
**Request**..... Special use within G-B zoning  
**Size** ..... 5.0± acres  
**Ward**..... Five  
**Proposed Use**..... Commercial outdoor recreational facility  
**Planning Division Staff Recommendation** ..... **Approval, with conditions**  
**Date**..... May 9, 2017

---

▪ **Applicant's Proposal and Background Information**

The applicant is proposing a special use within General Business (G-B) zoning to allow for a commercial outdoor recreational facility to include four soccer fields (three dirt/grass fields and one lighted concrete field). The property has been used for soccer fields and the applicant was unaware that a special use was required.

The property is located behind the Gainesville Market Shopping Center within a fenced area that was used as a fairground and for cattle auctions many years ago. The applicant states the proposed hours of operation are Monday thru Thursday from 4:30 P.M. to 9:30 P.M. consisting of 26 to 30 participants and 40 to 50 spectators. Saturday and Sunday hours are from 9:00 A.M. to 10:00 P.M. consisting of 60 to 70 participants and 60 to 80 spectators. Approximately 30 to 40 parking spaces are provided on site and additional parking is located within the adjacent shopping center. Bathrooms are located within the shopping center and two portable toilets. Prepackaged food items are sold during soccer events from an onsite mobile vending trailer.

▪ **Adjacent Land Use and Zoning**

| West     | Single-family homes; Crowder Signs, Wholesale flooring business | Residential-I (R-I), Suburban Shopping (S-S) and Highway Business (H-B) -County |

▪ **Zoning History**

*The following zoning actions have taken place in the immediate area during the last ten years:*

**2017** – A request by Masy Seng to annex a 0.19<sup>±</sup> acre tract located at 593 and 597 Shallowford Road for a donut shop was conditionally approved with General Business (G-B) zoning.

**2006** – A request by Green Street Capital Corporation to annex a 1.053<sup>±</sup> acre tract located at 333 Shallowford Road for a retail center was approved with General Business (G-B) zoning.

▪ **Staff Analysis**

**(1) Is the proposed use suitable in view of the zoning and development of adjacent and nearby property?**

The subject property is located within an established commercial area surrounded by a mixture of mostly non-residential uses. The subject property is unique given its history as an outdoor venue as a fairground and cattle auction. It appears the proposed soccer fields are reasonable given the buffer that surrounds the subject property and its access to the existing shopping center.

**(2) Will the proposed use adversely affect the existing use or usability of adjacent or nearby property?**

For a commercial outdoor recreational facility of this nature, the applicable code standards require a minimum lot area of two acres, vehicular access from a collector or arterial street, 100-foot building setback, 50-foot wide perimeter buffer and an exterior photometric (lighting) plan to enable the evaluation of impacts from illumination. The proposal appears to address these standards except for a photometric plan. The applicant states that Georgia Power has provided two lights for the concrete field and there have been no complaints from adjacent property owners. In addition, the existing parking provided for the use appears to be sufficient between the parking provided on site and the parking available within the adjacent Gainesville Market Shopping Center. It is important that parking for the facility not interfere with the occupants of the adjacent shopping center which include a church, hobby store and a thrift store.

**(3) Is the proposed use compatible with the purpose and intent of the Comprehensive Plan?**

The proposed development appears to be compatible with the Future Development Map of the Comprehensive Plan as the subject property is located within the *Retail/Commercial* land use category. The *Retail/Commercial* land use category includes commercial service activities such as grocery stores, banks, restaurants, theatres, hotels, and automotive related businesses. Commercial uses may be located as a single use in one building or grouped together in a shopping center.

According to the Character Area map for the City of Gainesville, the subject property is located within the *Browns Bridge Corridor* character area. The vision for this area encourages long term activity center nodes at the Memorial Park Drive and Pearl Nix Parkway intersections. Future public space improvements could include better pedestrian facilities and connections. Targeted redevelopment of outdated strip commercial is encouraged. Land uses allowed in the Browns Bridge Corridor are medium-density residential, multi-family residential, mixed-use, commercial, light industrial, and parks / recreation / conservation.

**(4) Are there substantial reasons why the property cannot or should not be used as currently zoned?**

The property is zoned General Business (G-B) which is intended for a mixture of commercial uses. A commercial outdoor recreational center requires special use approval within this zoning district due to potential impacts of additional noise, light and traffic. The subject property appears to be underutilized given its size and proximity to other commercial properties and is prime for redevelopment with the adjacent aging shopping center.

**(5) Will the proposed use cause an excessive or burdensome use of public facilities or services, including but not limited to streets, schools, water or sewer utilities, and police or fire protection?**

It is staff's opinion the proposed outdoor soccer fields should not be burdensome to the existing public facilities or services provided by the City of Gainesville. Numerous public facilities such as water and sewer are readily available. Access to the subject property is from Shallowford Road which is capable of supporting additional traffic from the proposed use.

The subject property is easily accessible from the shopping center for emergency services. The closest fire station is Gainesville Fire Station #1 which is approximately 2.1 miles from the subject property. The Gainesville Police currently patrol the subject property.

Given the non-residential nature of the request there will be no impacts to the school system.

**(6) Is the proposed use supported by new or changing conditions not anticipated by the Comprehensive Plan or reflected in the existing zoning on the property or surrounding properties?**

The Comprehensive Plan expects this property to remain as commercial. It is the opinion of staff that the long term use of the property most likely will not include the commercial outdoor recreational facility, but could include pedestrian green space incorporated as part of a future redevelopment project. The entire shopping center property appears to be suitable for redevelopment as reinvestment has occurred within the immediate area including the Lakeshore Mall property and other commercial properties along Pearl Nix Parkway, Shallowford Road and Browns Bridge Road.

**(7) Does the proposed use reflect a reasonable balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property?**

Due to the Comprehensive Land Use Plan and surrounding commercial development, the proposed special use request appears to reflect a reasonable balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property.

---

▪ **Additional Analysis**

**When considering the Special Use application, the criteria below shall be considered giving due weight or priority to those factors that are appropriate to the circumstances of the proposal:**

**(1) The type of street providing access to the subject property is adequate to serve the proposed Special Use.**

Shallowford Road is adequate to serve the proposed use.

**(2) Access into and out of the property adequately provides for traffic and pedestrian safety, the anticipated volume of traffic flow, and access by emergency vehicles.**

The subject property is accessible through the adjacent shopping center and access design for vehicular and pedestrian safety appears adequate to handle the anticipated traffic and emergency access.

- (3) **Public facilities such as schools, water or sewer utilities, and police or fire protection are adequate to serve the Special Use.**

There is sufficient capacity for water and sewer to serve the proposed use. Bathrooms will be accessible from the shopping center and from portable facilities if needed. Police and fire are capable of providing services to the property and currently serve adjacent properties. Given the non-residential nature of the request there will be no impacts to the school system.

- (4) **Refuse, service, parking and loading areas on the property are located and screened to protect other properties in the area from such adverse effects as noise, light, glare or odor.**

The neighboring properties appear to be sufficiently buffered from the proposed use to protect against any adverse effects such as noise, light, glare or odor. However, the level of noise could fluctuate depending on the number of pedestrians attending the facility.

- (5) **The hours and manner of operation of the Special Use have no adverse effects on other properties in the area.**

The proposed hours of operation are Monday thru Thursday from 4:30 P.M. to 9:30 P.M. and Saturday / Sunday from 9:00 A.M. to 10:00 P.M. The outdoor soccer fields are well hidden behind the existing shopping center and are not visible from Shallowford Road, Pearl Nix Parkway, Skelton Road or Browns Bridge Road.

- (6) **The height, size and location of the buildings or other structures proposed on the property are compatible with the height, size or location of buildings or other structures on neighboring properties.**

There are no buildings proposed for the facility. The location of any portable structure will be required to be sufficiently buffered from all properties excluding the existing shopping center.

▪ **Staff Recommendation**

The Planning Division staff is recommending **conditional approval** of this special use request based on the Comprehensive Plan and the adjacent non-residential uses.

**Conditions**

1. **The development standards within the narrative, site plan and photographs submitted with the applicant's special use application shall be made part of the special use resolution, and shall be subject to the Community Development Director approval.**
2. **The commercial outdoor recreational facility shall be limited to no more than four soccer fields. The facility hours of operation shall not exceed Monday thru Thursday from 4:30 P.M. to 9:30 P.M. and Saturday / Sunday from 9:00 A.M. to 10:00 P.M.**
3. **The property owner shall maintain a minimum 50-foot wide evergreen vegetated buffer against all adjacent properties excluding the adjacent shopping center to the south. Additional evergreen buffer trees shall be planted within the perimeter buffer area where needed. The spacing, size and type of trees planted shall be subject to Community Development Department Director approval.**

4. The property owner shall provide a photometric plan to evaluate the impacts of the illumination. The outdoor lighting shall meet the standards of Section 9-9-3-14 of the Unified Land Development Code.
5. All parking areas used for the proposed commercial outdoor recreational facility shall be properly maintained. Parking within grass or dirt areas is not permitted. The use of pervious materials within the parking area is subject to review and approval by the Department of Water Resources.

Gainesville Market, LLC  
Soccer Fields

Date: March 23, 2017  
RE: 600 Shallowford Rd.

Soccer Fields at 600 Shallowford Road operate on 5 acres of land attached, owned and operated by the shopping center at 622 Shallowford Road. This land has been vacate and unused for many years. The last known use was a cattle auction and fairgrounds.

Our intent is to provide 4 soccer fields for the community. Three grass fields and one concrete field using existing concrete on site. This is providing a great service to our community having positive youth and adult recreational activities within the City of Gainesville.

Hours of operations are currently Monday-Thursday 4:30pm-9:30pm and Saturday and Sunday 9:00am-10:00pm. Monday-Thursday participants are about 26-30 and spectators range from 40-50. On Saturdays participants range from about 60-70 and spectators range from 60-80.

A buffer of 50' around this activity has not been a problem to the adjacent property owners thus far. We would ask for an exception on the 50' buffer between Gainesville Market Shopping Center and the Soccer Field since this is all owned by Gainesville Market, LLC. The other exception we would ask for is between the soccer fields and Army Reserve Facility since this is a similar use.

Restrooms are provided at the Gainesville Market shopping area. We have 2 handicap approved restrooms dedicated for the soccer fields. We also will provide additional portable facilities as needed or required by the City of Gainesville. Outdoor lighting is only provided on the concrete field. GA Power has provided two lights for this field with no complaints from any adjacent owners.

Traffic flow comes off of Shallowford Road and through Gainesville Market Shopping center. Parking area is provided on site with 30-40 spaces available.

Any food items sold on the property during soccer events will be approved by the Hall County Environmental Health Department. The only food and drink items sold will be pre-packaged.

Thank you for your consideration with this opportunity to provide positive activities for our youth and adults within the City of Gainesville.

## AGENDA REQUEST

---

**Date Submitted:** 4/20/2017

**Presenter:** Matt Tate

**Item of Business:** Request from **Manor Lake Development, LLC** for a special use on a 9.24± acres tract located on the northwest side of McEver Road, between Browns Bridge Road and Orchard Brook Drive (a/k/a **2900 McEver Road**), having a zoning of Office and Institutional (O-I) and Residential-I (R-I).  
Ward Number: Four  
Tax Parcel Number(s): 08-022-000-005  
Request: Assisted living facility

**Meeting Date:** 5/9/2017

---

**Purpose of Request:**

The applicant is proposing a special use within Office and Institutional (O-I) zoning to establish an 82-unit / 86-bed assisted living and memory care facility. The subject property is located within the Gateway Corridor Overlay Zone, is heavily wooded and contains a creek. The proposed building will be one-story and approximately 60,000 square feet in size. It is anticipated there will be a total of 50 full/part time employees. The proposed facility will access an existing common drive shared with the neighboring "The Fields" apartment complex. The applicant states the proposed location was chosen due to its proximity to Free Chapel Worship Center and Cresswind at Lake Lanier. Adjacent uses include single-family homes, multi-family apartments, Rite Aid, Free Chapel and the Hall County Government Center.

**History/Background:**

**Facts & Issues for Consideration:**

**Department Recommendation:**

Planning staff is recommending approval with five conditions.

**Property Owner** ..... Reynolds, Hemmer Properties  
**Location** ..... 2900 McEver Road  
**Request** ..... Special use within O-I zoning  
**Size** ..... 9.24± acres  
**Ward** ..... Four  
**Proposed Use** ..... Assisted living facility  
**Planning Division Staff Recommendation** ..... **Approval, with conditions**  
**Date** ..... May 9, 2017

---

▪ **Applicant's Proposal and Background Information**

The applicant is proposing a special use within Office and Institutional (O-I) zoning to establish an 82-unit / 86-bed assisted living and memory care facility. The subject property has a split zoning of Office and Institutional (O-I) consisting of 7.84± acres and a zoning of Residential-I (R-I) consisting of 1.4± acres. The proposed assisted living facility is to be located entirely within the O-I zoned portion of property.

The subject property is located within the Gateway Corridor Overlay Zone, is heavily wooded and contains a creek. The proposed building is one-story and approximately 60,000 square feet in size. It is anticipated there will be a total of 50 full/part time employees. The facility will offer three full meals a day plus healthy snacks, physical therapy, memory therapy, group activities, hair salon, movie room, private dining and other activities. A shuttle will be provided so that residents can go shopping, attend church and visit doctors. The proposed facility will access an existing common drive shared with the neighboring "The Fields" apartment complex. The applicant states the proposed location was chosen due to its proximity to Free Chapel Worship Center and Cresswind at Lake Lanier.

▪ **Adjacent Land Use and Zoning**

▪ **Other Departmental Comments**

According to the Georgia Department of Transportation (GDOT), the development will be required to meet the sight distance requirements and will need to coordinate with GDOT for review and approval.

▪ **Zoning History**

*The following zoning actions have taken place in the immediate area during the last ten years:*

**2016** - A request by Spring Road Group, LLC to annex a 10.06± acre tract located at 2360, 2370, 2374, 2376, 2380, 2400 and 2410 Spring Road was approved with conditional Residential-II (R-II) zoning for a 110-unit active adult community.

**2015** - A request by Ken Chupp to annex a 0.821± acre tract located at 2305, 2313 & 2317 Pine Circle Drive and 2280, 2282 & 2284 Spring Road was approved with Residential-II (R-II) zoning for sewer for three existing duplex homes.

**2015** - A request by Fernando Martinez to annex a 0.24± acre tract located at 2321 Pine Circle Drive for sewer was approved with Residential-I (R-I) zoning.

**2013** - A request by Donald E. Hammond to rezone a 2.59± acres tract located at 3030 McEver Road from Office and Institutional (O-I) to Neighborhood Business (N-B) for office uses was conditionally approved.

**2013** - A request by OK Lake Lanier, LLLP to annex a 76.05± acres tract with Planned Unit Development (P-U-D) zoning located at 3121 Browns Bridge Road and 3110 Montgomery Drive was approved with conditions for a mixed-use planned community for active adults.

**2010** - A request by Rochester & Associates, Inc. to amend a 378.3± acres tract zoned Planned Unit Development (P-U-D) located at 3050 Browns Bridge Road; 3004 Ivey Road and 3113 Scarlet Oak Lane to increase the number of lots within the Cresswind subdivision from 750 to 799 lots and to amend some of the development standards was approved with conditions.

**2010** - A request by Cook's Properties, LLC to rezone 2.91± acres located at 3020 McEver Road from Office and Institutional (O-I) to Neighborhood Business (N-B) for a pest control business was approved with conditions.

**2010** - A request by RaceTrac Petroleum, Inc. to amend a 2.24± acres tract zoned Planned Unit Development (P-U-D) located at 1450 McEver Road to allow internally illuminated free-standing, building and canopy signs for a RaceTrac gas station/convenience store, was approved with conditions.

**2009** - A request by Gainesville Church of God to annex a 3.0± acres tract with Residential-I (R-I) zoning located at 2920 Browns Bridge Road was approved with conditions for an existing church.

**2009** - A request by Raul Castruita to annex a 0.34± acre tract located at 2283 Spring Road for sewer was approved with Residential-I (R-I) zoning.

**2008** - A request by Easlan Capital of Atlanta, Inc. to amend a 10.07± acres tract zoned Planned Unit Development (P-U-D) located at 3050 Browns Bridge Road, 3005 Ivey Road and 3115 Scarlet Oak Lane for commercial/retail space and gas station/convenience store was approved with conditions.

**2007** - A request by Levitt and Sons to amend a 421.126± acres tract zoned Planned Unit Development (P-U-D) located at 3050 and 3245 Browns Bridge Road to reduce the minimum square footage of fifty of the proposed homes was approved with conditions.

**2007** - A request by Sentinel Properties, Inc. to annex a 4.67± acres tract located at 2475 and 2503 Pemmican Run for 56 townhome/condominium units was approved with conditional Planned Unit Development (P-U-D) zoning.

▪ **Staff Analysis**

**(1) Is the proposed use suitable in view of the zoning and development of adjacent and nearby property?**

The proposed 84-unit / 86-bed assisted living facility appears to be suitable based on the adjacent and nearby residential and non-residential development. The surrounding uses consist of a mixture of uses including single-family homes, multi-family apartments, pharmacy and a church.

**(2) Will the proposed use adversely affect the existing use or usability of adjacent or nearby property?**

The proposed use should not adversely affect the existing use or usability of adjacent or nearby property given its location along McEver Road. Assisted living facilities are generally considered low impact uses in regards to any adverse effects such as traffic, noise, light, glare or odor. The adjacent and nearby uses should continue to function at their current levels with limited impacts.

**(3) Is the proposed use compatible with the purpose and intent of the Comprehensive Plan?**

The proposal is consistent with the Comprehensive Plan. The subject property is adjacent to single-family and non-residential uses but appears to be less desirable for single-family development due to its proximity along Thompson Bridge Road.

The Gainesville 2030 Future Development Map for the City of Gainesville places the subject property within the *Mixed Use General* land use category. This category includes areas containing or planned for a mixture of land uses including office, neighborhood retail, and residential.

According to the Character Area map for the City of Gainesville, the subject property is located within the *Suburban Residential* character area. Land uses allowed within this area include low-density residential, medium density residential, multi-family residential, public / institutional, commercial, and parks / recreation / conservation and mixed use. The goal of this character area is to preserve older, stable residential subdivisions and encourage newer projects with smaller lot sizes, pedestrian infrastructure, and buildings patterned after traditional local housing, possibly containing a small neighborhood-serving "village center." Mixed-use neighborhood design is desired but not required. In areas where natural features or sensitive environments are important, cluster housing or conservation subdivision design may be appropriate.

**(4) Are there substantial reasons why the property cannot or should not be used as currently zoned?**

The property is zoned Office and Institutional (O-I) which permits a small assisted living facility serving 18 persons or less, but requires special use approval for a larger facility. The size of the property appears to be suitable for the proposed 84-unit / 86-bed assisted living facility.

**(5) Will the proposed use cause an excessive or burdensome use of public facilities or services, including but not limited to streets, schools, water or sewer utilities, and police or fire protection?**

Various city services including police and fire protection and water utilities serve the adjacent properties. Existing water and sewer services are capable of serving the development. Police and fire protection are currently provided to adjacent properties. The proposed use may generate a higher ratio of emergency calls simply due to the age of the residents. Gainesville Fire Station #4 is located off of Memorial Park Drive and is approximately 2.3± miles from the subject property. Hall County Fire Station # 4 is located only 0.19 miles from the property off of McEver Road.

The proposal would have no impact on the school system given the nature of the use.

The subject property is located along an arterial road which is capable of handling additional traffic. A dedicated southbound right turn lane and a dedicated northbound left turn lane at the median break are currently in place at the entrance to the shared entrance serving the apartment complex. According to the "Trip Generation Manual" as published by the Institute of Transportation Engineers, a 110-unit the assisted living facility could generate an average of 181± new trips per weekday, 13 A.M. peak hour trips and 18 P.M. peak hour trips at full occupancy.

**(6) Is the proposed use supported by new or changing conditions not anticipated by the Comprehensive Plan or reflected in the existing zoning on the property or surrounding properties?**

Much of the surrounding development has occurred over the last 15 years. This is in part due to the fact that McEver Road serves as a main corridor connecting Gainesville, Oakwood and Flowery Branch. Significant development located nearby includes the Free Chapel campus, Hall County Government Center and Cresswind at Lake Lanier active adult community. According to the Comprehensive Plan, properties fronting McEver Road will continue to develop with a mixture of residential, office, institutional and light retail uses.

**(7) Does the proposed use reflect a reasonable balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property?**

Due to the Comprehensive Land Use Plan and the compatible surrounding uses, the proposed special use request appears to reflect a reasonable balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property.

---

▪ **Additional Analysis**

**When considering the Special Use application, the criteria below shall be considered giving due weight or priority to those factors that are appropriate to the circumstances of the proposal:**

**(1) The type of street providing access to the subject property is adequate to serve the proposed Special Use.**

The proposed use will utilize an existing driveway easement shared by the adjacent apartment complex which is adequate to serve the proposed use.

**(2) Access into and out of the property adequately provides for traffic and pedestrian safety, the anticipated volume of traffic flow, and access by emergency vehicles.**

The proposed access design for vehicular and pedestrian safety appears adequate to handle the anticipated traffic and emergency access.

- (3) **Public facilities such as schools, water or sewer utilities, and police or fire protection are adequate to serve the Special Use.**

There is sufficient capacity for water and sewer to serve the proposed use. Gainesville police and fire are capable of providing services to the property and currently serve adjacent properties. The proposal would have no impact on the school system given the nature of the use.

- (4) **Refuse, service, parking and loading areas on the property are located and screened to protect other properties in the area from such adverse effects as noise, light, glare or odor.**

The type of use proposed generally does not create adverse effects to neighboring properties. The development code requires standards to guard against such adverse effects.

- (5) **The hours and manner of operation of the Special Use have no adverse effects on other properties in the area.**

The proposed use will be open 24-hours a day / 7 days a week similar to other assisted living facilities. The proposed location of the assisted living facility should have limited impacts to surrounding properties.

- (6) **The height, size and location of the buildings or other structures proposed on the property are compatible with the height, size or location of buildings or other structures on neighboring properties.**

The proposed building will be one story which is comparable to surrounding single-family structures. There are adjacent and nearby structures that are taller and larger than the proposed structure such as the adjacent apartment complex and the Free Chapel Worship Center.

▪ **Staff Recommendation**

The Planning Division staff is recommending **conditional approval** of this special use request based on the Comprehensive Plan and the adjacent non-residential uses.

**Conditions**

1. The development standards within the narrative, site plan and photographs submitted with the applicant's special use application shall be made part of the special use resolution, and shall be subject to the Community Development Director approval.
2. The subject property shall be limited to the proposed 86-bed assisted living facility and those uses permitted within the Office and Institutional (O-I) zoning district only.
3. The developer shall provide a minimum 25-foot wide evergreen vegetated buffer along the property lines adjacent to the single-family properties. Additional evergreen buffer trees shall be planted within the perimeter buffer area where needed. The intent of the buffer is to supplement the existing vegetation with buffer trees to provide for an effective buffer. The spacing, size and type of trees planted shall be subject to Community Development Department Director approval.

4. All access point design must be reviewed and approved by the Gainesville Public Works Director. Any required traffic improvements associated with the proposed development shall be at the full expense of the developer/property owner.
5. An updated as-built survey/plat of the subject property, indicating existing conditions and all improvements shall be recorded prior to obtaining a Certificate of Occupancy for the future use.

# Manor Lake Development, LLC

Senior Communities

---

Manor Lake Development, LLC, a Georgia real estate development company, proposes to build an approximately 82 unit, 86-bed Assisted Living and Memory Care facility in Gainesville, GA. The legal address for the site in interest is 2900 McEver Rd and consists of 9.24 acres. We are requesting a special use within the Office and Industrial (O-I) for the proposed use. The main purpose of this community is to provide world-class living and care for senior residents in the area. Most, if not all, of these residents will pull from many surrounding locations. One-quarter mile north is the 1,000-home Cresswind at Lake Lanier, a 55+ senior development. Many current independent residents in this mega development will one day need assisted care, or at the very least their spouse. Our site is primed to be an excellent next step for those who want to stay close to their former home or admitted loved one. Directly across the street from us is Free Chapel, one of the largest churches in Georgia. There will be many parents and grandparents who will need extended care, but who will also enjoy the convenience of living so close to the congregation they are imbedded in. Lastly, there are a number of affluent neighborhoods in the area and on Lake Lanier that support a wealthier median income to afford Assisted Living/Memory Care boarding.

Our facility will have 50 full time/part time employees with 24-hour services for our residents. We will offer 3 full meals a day plus healthy snacks, physical therapy, memory therapy, group activities, hair salon, movie room, private dining, and many other amenities. A shuttle will be provided for residents so that they can go shopping at local stores, attend church, and visit doctors. The facility will be a one-story structure at roughly 60,000 sq/ft, thus giving ease in not forcing residents to navigate elevators to get to their dining and activities. The façade will be roughly 50% stone and brick, giving a lodge type feel. Inside will be a double-sided stone fireplace that can be seen from both the lobby and the large dining room.

This proposed facility already has a dedicated entrance that is shared with Oak Brook Apartments at Oak Brook Drive off of McEver Rd. Due to the fact that the facility is open 24 hours with employees in shifts, and residents will not have vehicles, there will be a low impact on the current traffic on McEver Rd. Utilities are already on-site, and this type of development will have little to no impact on city and county services, and no impact on schools. We will be charging market rate rents, which will provide a boost to the tax base for the city and county. Given demographic studies in the area, there is a great need for a quality, well-positioned Assisted Living/Memory Care operation in Gainesville, GA and we believe this site is best suited for it.

LINEAR ERROR OF CLOSURE AS  
COMPUTED FROM FIELD DATA IS  
1 FOOT IN 25000 FEET.

## AGENDA REQUEST

---

**Date Submitted:** 4/20/2017

**Presenter:** Matt Tate

**Item of Business:** Request from **Carriage North, LLC** for a special use on a 0.71± acre tract located on the southwest side of the terminus of Corporate Drive, west of Browns Bridge Road (a/k/a **2425 Corporate Drive**), having a zoning of General Business (G-B).

Ward Number: Five

Tax Parcel Number(s): 08-007-001-042

Request: Helipad

**Meeting Date:** 5/9/2017

---

### **Purpose of Request:**

The applicant is proposing a special use within General Business (G-B) zoning to permit a helipad. The location of the helipad is within an overflow parking area adjacent to Carriage Nissan, at the end of Corporate Drive and is periodically used for this purpose. The helipad is required to be secured by a chain link fence and locking gate. According to the applicant, there will be less than ten helicopter takeoffs and landings each month during normal business hours of 9:00 A.M. and 6:00 P.M. The helicopter is used by the owner of Carriage Auto (David Basha), and will be piloted by Blue Ridge helicopters, Inc. Adjacent uses include a church, various auto sale and service uses and undeveloped land. Nearby residential uses include "The Pines of Lanier" apartment complex located approximately 600-feet to the east of the subject property.

### **History/Background:**

### **Facts & Issues for Consideration:**

### **Department Recommendation:**

Planning staff is recommending approval with six conditions.

### **Department Director:**

**GAINESVILLE PLANNING and APPEALS BOARD  
STAFF RECOMMENDATION**

**Applicant and Property Owner**..... Carriage North, LLC  
**Location**..... 2425 Corporate Drive  
**Request**..... Special use within G-B zoning  
**Size** ..... 0.71± acre  
**Ward**..... Five  
**Proposed Use**..... Helipad  
**Planning Division Staff Recommendation** ..... **Approval, with conditions**  
**Date**..... May 9, 2017

---

▪ **Applicant's Proposal and Background Information**

The applicant is proposing a special use within General Business (G-B) zoning to allow for a helipad which is considered an aircraft landing area by the Unified Land Development Code. The location of the helipad is within an overflow parking area adjacent to Carriage Nissan, at the end of Corporate Drive and is periodically used for this purpose. The helipad is required to be secured by a chain link fence and locking gate. According to the applicant, there will be less than ten helicopter takeoffs and landings each month during normal business hours of 9:00 A.M. and 6:00 P.M. The helicopter is used by the owner of Carriage Auto (David Basha), and will be piloted by Blue Ridge Helicopters, Inc.

According to the Unified Land Development Code the below six requirements should be met when considering the use of a private heliport. The proposal appears to meet the following requirements excluding items (d) and (f). The subject property is not fully enclosed by a minimum 3-foot tall fence, wall or hedge. As well, the property is located within 600 feet of a residentially zoned district but is approximately 650 feet from the nearest residential use.

- (a) No person shall use or authorize the use of an aircraft landing area on any property owned, leased, or controlled by such person until such person has obtained liability insurance coverage on the operation and use of such area. Such coverage shall be obtained from an insurer authorized or licensed to transact insurance business in Georgia and shall provide a minimum liability coverage of at least \$500,000 per claim.
- (b) The proposed aircraft landing area shall be of sufficient size to meet the Federal Aviation Administration requirements for the class of airport or aircraft landing proposed, and it must be approved by the Federal Aviation Administration or other agency of the federal government with jurisdiction. There shall be sufficient distance between the end of each landing strip and the property boundary to satisfy the requirements of the Federal Aviation Administration.
- (c) There shall be no existing or proposed flight obstructions such as towers, chimneys or natural obstructions outside the proposed aircraft landing area which would be in the approach zone to any of the proposed runways, landing strips, or landing areas. In cases where air rights or easements have been acquired from the owners of abutting properties to protect approach zones, satisfactory evidence thereof shall be submitted with the application.

- (d) The owner of the aircraft landing area shall erect a safety barrier around the peripheral area surrounding the takeoff and landing area. The safety barrier shall be a fence, wall or hedge no less than three (3) feet in height and fully enclosed with a self-locking gate.
- (e) An environmental impact report shall be submitted, addressing whether the facility is consistent with the comprehensive plan; whether the use will have an adverse impact on the surrounding area; and whether the noise level will impact the surrounding area. Additionally, the applicant shall submit a plan with any mitigation techniques that may be required. The Community Development Director shall review the environmental impact report, evaluate proposed mitigating techniques, and determine the sufficiency thereof, require any additional information relevant to the application, and make a recommendation to the Governing Body regarding approval or denial of the special use application.
- (f) In approving an aircraft landing area, the Governing Body may provide that the approval is conditioned on measures or restrictions designed to mitigate any negative impacts of the use. The proposed location of an aircraft landing area within six-hundred (600) feet of a residential zoning district or existing residential use may form the basis for denial of the application.

▪ **Adjacent Land Use and Zoning**

Adjacent uses include a church, various auto sale and service uses and undeveloped land. Nearby residential uses include “The Pines of Lanier” apartment complex located approximately 650±-feet to the east of the subject property.

| Location | Use                           | Zoning                                        |
|----------|-------------------------------|-----------------------------------------------|
| North    | Undeveloped Land              | Residential-I-A (R-I-A) -City                 |
| South    | Vacant Land; Church           | Agricultural Residential-III (AR-III) -County |
| East     | Auto Repair; Auto Storage Lot | General Business (G-B) -City                  |
| West     | Undeveloped Land              | Residential-I-A (R-I-A) -City                 |

▪ **Zoning History**

*The following zoning actions have taken place in the immediate area during the last ten years:*

**2015** – A request by the Roman Catholic Archdiocese of Atlanta to amend a 14.233± acres tract located at 2436 S Smith Road zoned Planned Unit Development (P-U-D) was conditionally approved for a church.

**2015** – A request by the Roman Catholic Archdiocese of Atlanta to amend and rezone a 4.899± acres tract located at 0 S Smith Road from Residential-I (R-I) to Planned Unit Development (P-U-D) was conditionally approved for a church.

**2013** – A request by Foote & Miller Properties, LLC to annex a 2.72<sup>±</sup> acres tract located at 2420 Browns Bridge Road was approved with General Business (G-B) zoning for sewer for an existing auto dealership.

**2012** – A request by Rescate 2000, Inc. for a special use on a 8.19<sup>±</sup> acres tract located at 2920 Florence Drive was approved with conditional Office and Institutional (O-I) zoning for a daycare center.

**2010** – A request by Jose Delagarza to annex a 0.33<sup>±</sup> acre tract located at 3 Cherry Circle was approved with conditional Residential-I (R-I) zoning for sewer for an existing single-family residence.

**2009** – A request by Car Store of Gainesville to annex a 0.45<sup>±</sup> acre tract located at 2650 Browns Bridge Road was approved with conditional General Business (G-B) zoning for an auto sales facility.

**2009** – A request by Gainesville Church of God to annex a 3.0<sup>±</sup> acres tract located at 2920 Browns Bridge Road was approved with Residential-I (R-I) zoning for an existing church.

**2008** – A request by Wayne Clark and Associates to annex and rezone a 2.48<sup>±</sup> acres tract located at 2484 S Smith Road from Agricultural Residential-III (AR-III) to General Business (G-B) for a retail center was approved with conditions.

**2008** – A request by Trinity Presbyterian Church to rezone a 2.185<sup>±</sup> acres tract located at 2023 Memorial Park Drive from Residential-I (R-I) to General Business (G-B) was approved with conditions for an existing church and a new larger monument sign.

**2007** – A request by Kwang Jung to annex a 2.12<sup>±</sup> acres tract located at 2800 Browns Bridge Road was approved with conditions with General Business (G-B) zoning for an auto repair / office.

▪ **Staff Analysis**

**(1) Is the proposed use suitable in view of the zoning and development of adjacent and nearby property?**

The subject property is located within a heavy commercial area off of Browns Bridge Road. Multi-family apartments are located to the northeast off of Pine Cove Circle and single-family residential homes are located to the southwest off of Browns Bridge Road. While there are residentially zoned properties adjacent to the subject property, the closest residential structure is located approximately 650<sup>±</sup> feet to the east within the Pines of Lanier apartment complex which is zoned Light Industrial (L-I).

The proposed use is unique in that there are no zoning districts within the city limits that inherently allow for a helipad without special use approval. Presently, there are two known helipads within the city limits located at Lee Gilmer Airport and Northeast Georgia Medical Center.

**(2) Will the proposed use adversely affect the existing use or usability of adjacent or nearby property?**

The primary impact created by the proposed use will be noise created and debris disturbed by the helicopter upon landing and taking off from the helipad. The applicant has stated that flight paths will avoid the nearby apartment complex to reduce noise impacts. According to the applicant there will be less than 10 helicopter landings and takeoffs each month during normal business hours.

**(3) Is the proposed use compatible with the purpose and intent of the Comprehensive Plan?**

The subject property is located within the *Retail/Commercial* land use category which includes commercial service activities such as grocery stores, banks, restaurants, theatres, hotels, and automotive related businesses. Commercial uses may be located as a single use in one building or grouped together in a shopping center.

According to the Character Area map for the City of Gainesville, the subject property is located within the *Browns Bridge Corridor* character area. The vision for this area encourages long term activity center nodes at the Memorial Park Drive and Pearl Nix Parkway intersections. Future public space improvements could include better pedestrian facilities and connections. Targeted redevelopment of outdated strip commercial is encouraged. Land uses allowed in the Browns Bridge Corridor are medium-density residential, multi-family residential, mixed-use, commercial, light industrial, and parks / recreation / conservation. The use of a helipad is not specifically mentioned within the Comprehensive Plan.

**(4) Are there substantial reasons why the property cannot or should not be used as currently zoned?**

The property is zoned General Business (G-B) which is intended for a mixture of commercial uses. The proposed helipad will be secondary to the primary use of the property which is a parking lot used to store vehicles for sale for Carriage Auto. If the request were denied, the existing parking lot could continue to be used for the parking of vehicles. The applicant states the parking lot is seldom full and sufficient free space is generally available for a helicopter landing.

**(5) Will the proposed use cause an excessive or burdensome use of public facilities or services, including but not limited to streets, schools, water or sewer utilities, and police or fire protection?**

The proposed use should have no impacts on streets, schools, water or sewer utilities, and police or fire protection. The subject property is easily accessible from Corporate Drive for emergency services. The closest fire station is Gainesville Fire Station #4 which is approximately 1.4 miles from the subject property off of Memorial Park Drive. The Gainesville Police currently patrol the subject property.

**(6) Is the proposed use supported by new or changing conditions not anticipated by the Comprehensive Plan or reflected in the existing zoning on the property or surrounding properties?**

The Comprehensive Plan expects this property to remain as commercial including much of the property located along Browns Bridge Road. Property to the north between Browns Bridge Road and McEver Road is seen as *Mixed-Use General* and *Medium-High Residential*.

**(7) Does the proposed use reflect a reasonable balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property?**

Due to the adjacent and nearby commercial development and the property's distance from existing residential uses, the proposed special use request appears to reflect a reasonable balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property.

▪ **Additional Analysis**

When considering the Special Use application, the criteria below shall be considered giving due weight or priority to those factors that are appropriate to the circumstances of the proposal:

- (1) **The type of street providing access to the subject property is adequate to serve the proposed Special Use.**

The proposed use is located off of Corporate Drive which is adequate to serve the proposed use.

- (2) **Access into and out of the property adequately provides for traffic and pedestrian safety, the anticipated volume of traffic flow, and access by emergency vehicles.**

The proposed use will not impact the vehicular traffic volumes within the immediate area. The helipad is required to be fenced with locking gate which will protect any unauthorized pedestrians from entering the landing area. The helipad location is accessible from Corporate Drive for emergency vehicles.

- (3) **Public facilities such as schools, water or sewer utilities, and police or fire protection are adequate to serve the Special Use.**

There will be little to no impacts to public facilities given the nature of the request. Police and fire are capable of providing services to the property and currently serve adjacent properties.

- (4) **Refuse, service, parking and loading areas on the property are located and screened to protect other properties in the area from such adverse effects as noise, light, glare or odor.**

The neighboring properties located off of Corporate Drive are auto sales/repair businesses which are owned by the applicant and the neighboring Milton Martin Honda. The proposed location of the helipad appears to be reasonable given its location at the end of Corporate Drive. However, the adjacent uses will still be impacted by the noise created and possible debris disturbed from the helicopter.

- (5) **The hours and manner of operation of the Special Use have no adverse effects on other properties in the area.**

According to the applicant there will be no more than 10 takeoffs and landings a month between the hours of 9:00 A.M. and 6:00 P.M. In addition, the applicant states the flight pattern will be over wooded areas so as to minimize impacts of noise on the nearby apartment complex.

- (6) **The height, size and location of the buildings or other structures proposed on the property are compatible with the height, size or location of buildings or other structures on neighboring properties.**

There are no buildings proposed for the use.

▪ **Staff Recommendation**

The Planning Division staff is recommending **conditional approval** of this special use request based on the adjacent and nearby commercial development and the property's distance from existing residential uses.

**Conditions**

1. The Special Use Permit contained in this application shall be valid for no more than a two year period at which time the Special Use Permit must be reapplied for and approved by the Governing Body to continue the use.
2. The applicant shall provide to the City of Gainesville Community Development Department proof of annual liability insurance coverage on the operation and use of the proposed helipad. Such coverage shall be obtained from an insurer authorized or licensed to transact insurance business in Georgia and shall provide a minimum liability coverage of at least \$500,000 per claim. The proof of liability shall be provided January 1<sup>st</sup> of every year.
3. The applicant shall provide to the City of Gainesville documentation that the proposed helipad meets Federal Aviation Administration requirements.
4. The use of the proposed helipad shall be limited to the hours of 9:00 A.M. to 6:00 P.M.
5. The proposed helipad shall be fully enclosed to include a minimum 3-foot tall safety barrier fence with a locking gate.
6. The flight pattern of any helicopter using the proposed helipad shall avoid crossing over the airspace directly above the nearby "Pines of Lanier" apartment complex or any future adjacent residential use.

**NARRATIVE REPORT IN SUPPORT OF APPLICATION FOR SPECIAL  
USE PERMIT FOR HELISTOP**

Carriage North, LLC proposes to use a secured parking lot which it owns, located at 2425 Corporate Drive, Gainesville, Georgia 30504 ("the Property"), as a helicopter take-off and landing area for a single helicopter that will transport the principal of Carriage North, David Basha. Mr. Basha wishes to use the Property for efficient personal transportation via helicopter between multiple business properties which he and his affiliated companies operate.

A survey plat showing the boundaries of the Property is enclosed herewith. A separate copy of that survey is also enclosed with markings showing the proposed takeoff and landing area. This marked-up copy of the survey is submitted as this applicant's concept plan.

The helicopter to be used by Mr. Basha is a 2013 Robinson R44 helicopter (the "Helicopter"), which will be piloted by Ron Carroll of Blue Ridge Helicopters, Inc. Blue Ridge Helicopters, Inc. has insured the Helicopter against liability with limits of \$5,000,000. A copy of the Certificate of Insurance providing said coverage is enclosed herewith. It is not expected that any other aircraft will use the Property for takeoff or landing purposes.

At present, the Property is used as overflow parking for the Carriage Nissan automobile dealership located at 2400 Browns Bridge Road, Gainesville, GA 30504. The parking lot is seldom full, and sufficient free space is generally available for a helicopter landing. The Property is securely fenced with chain link fencing which has a lock to secure the area against unauthorized access.

It is expected that the Property will be used for less than ten helicopter takeoffs and landings each month. All takeoffs and landings are expected to occur during or in close proximity to normal business hours, between 9:00AM and 6:00PM.

An aerial photograph of the Property with arrows marking the proposed flight paths of the helicopter during takeoffs and landings directions is enclosed. The flight paths are over wooded areas near the Property and avoid developed or populated areas,

Applicant believes that the Property is not within 600 feet of any property zoned as residential real estate, as indicated in City Ordinance 9-10-10-1. There is an apartment complex, known as Pines of Lanier, which is located near the Property. Applicant has been informed that the apartment complex is not zoned as residential real estate. Out of respect for the residents of said apartment complex, the proposed flight paths avoid crossing over the airspace directly above or adjacent to the apartment complex. The significant wooded area between the Property and the apartment complex is expected to dampen any noise resulting from the proposed use of the Property.

This application does not propose any new construction or physical alteration of existing improvements on the Property. This application is solely for the purpose of obtaining a permit to use the existing parking lot as a helicopter takeoff and landing area. It is expected that any environmental impact will be negligible, because this application does not propose any physical alteration to the Property. As such, this application is submitted without an environmental impact report.

# CONCEPT PLAN

## SURVEYOR'S NOTES:

1. THIS PROPERTY IS NOT LOCATED WITHIN A FLOOD HAZARD AREA AS PER FIRM FLOOD INSURANCE RATE MAP CITY OF GAINESVILLE, GA. COMMUNITY PANEL NO. 130253 D188 F, EFFECTIVE DATE: 09/25/2006. THIS OPINION IS NOT A CERTIFICATION OF FLOOD HAZARD STATUS, BUT IS AN INTERPRETATION OF THE REFERENCED MAP AND PUBLIC DATA. IF THE EXACT LOCATION OR ELEVATIONS OF THE FLOOD HAZARD BOUNDARIES ARE NECESSARY, A MORE DETAILED STUDY MAY BE NEEDED. THIS FIRM ASSUMES NO RESPONSIBILITY OR LIABILITY FOR THE ACCURACY OF THE REFERENCED MAP OR PUBLIC DATA.
2. THIS SURVEY WAS PREPARED ON THE GEORGIA STATE PLANE COORDINATE SYSTEM, TRANSVERSE MERCATOR PROJECTION, WEST ZONE, NORTH AMERICAN DATUM OF 1983/2007 ADJUSTMENT. THE COMBINED SCALE FACTOR FOR THIS SITE IS: 0.99999957. (GRID DISTANCE/SCALE FACTOR=GROUND DISTANCE). ALL COORDINATES SHOWN HEREON ARE GRID COORDINATES UNLESS OTHERWISE STATED.
3. CONVENTIONAL EQUIPMENT USED FOR MEASUREMENT WAS EITHER A TOPCON C.I.S. 925A OR TOPCON PS 103. GPS EQUIPMENT USED FOR MEASUREMENT WAS A CHAMPION TWO GNSS RECEIVER USING REALTIME KINEMATIC OBSERVATIONS PROCESSED THROUGH THE CGPS NETWORK.
4. THE FIELD DATA UPON WHICH THIS PLAN IS BASED HAS A CLOSURE PRECISION OF ONE FOOT IN 45,741 FEET AND AN ANGULAR CLOSURE OF 00' 00" PER ANGLE POINT, AND WAS ADJUSTED USING LEAST SQUARES RULE. FIELD PARTY J.J. & H.R.
5. THIS PLAN HAS BEEN CALCULATED FOR CLOSURE AND WAS FOUND TO BE ACCURATE WITHIN ONE FOOT IN +27,069 FEET.
6. THE SURVEY WAS PREPARED WITHOUT THE BENEFIT OF TITLE REVIEW AND IS SUBJECT TO ANY RESERVATIONS, RESTRICTIONS, RIGHTS-OF-WAY AND EASEMENTS OF RECORD.
7. THIS PLAN OF SURVEY IS FOR THE EXCLUSIVE USE OF THE PARTIES LISTED UNDER THE CAPTION "SURVEY FOR" ANY THIRD PARTY USE TO BE AT THEIR OWN RISK.
8. THE FIELD SURVEY WAS CONDUCTED ON 12/04/2014.

 zone for helicopter

## SURVEYOR'S CERTIFICATE

It is hereby certified that this plan is true and correct and was prepared from an actual survey of the property by me or under my supervision; that all monuments shown thereon actually exist. The field data upon which this plan is based has a closure precision of one foot in 45,741 feet, and an angular error of 00'00" per angle point, and was adjusted using Crandall rule. This plan has been calculated for closure and is found to be accurate within one foot in 45,741 feet.

# ACORD® CERTIFICATE OF AIRCRAFT INSURANCE

DATE (MM/DD/YYYY)

02/10/2017

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

PRODUCER  
Southwest Aviation Ins Group of AZ Inc.  
14415 N. 73rd Street, Ste 115
