The Subrecipient shall comply with all applicable federal, state, and local environmental and historic preservation (EHP) requirements and shall provide any information requested by FEMA or GEMA/HS to ensure compliance with applicable laws and regulations, including: Federal EHP regulations, laws and Executive Orders; National Environmental Policy Act; National Historic Preservation Act; Endangered Species Act; and Executive Orders on Floodplains (11988), Wetlands (11990), and Environmental Justice (12898). Failure of the Subrecipient to meet federal, state, and local EHP requirements and obtain applicable permits may jeopardize federal funding. The Subrecipient shall not undertake any project having the potential to impact EHP resources without prior approval from FEMA, through GEMA/HS, including but not limited to communications towers, physical security enhancements, new construction, modifications to buildings, and replacement of facilities. The Subrecipient shall coordinate with GEMA/HS regarding any activities using grant funding that require specific documentation of compliance with federal laws and/or regulations.
 - 2. The Subrecipient shall provide any information requested by GEMA/HS or FEMA to ensure compliance with applicable federal EHP requirements. Any change to the approved project or scope of work will require re-evaluation for EHP compliance. If ground disturbing activities may occur during project implementation, the Subrecipient must ensure monitoring of ground disturbance, and, if any potential archeological resources are discovered, the recipient will immediately cease construction in that area and notify GEMA/HS, and the Georgia Department of Natural Resources, Georgia State Historic Preservation Division.
 - 3. The Subrecipient shall not undertake any project using HSGP funding to which the National Environmental Policy Act (NEPA) requirements are applicable without first obtaining written approval from FEMA, through GEMA/HS. The Subrecipient shall coordinate with GEMA/HS

regarding any activities using grant funding that require specific documentation of NEPA compliance. Any construction activities initiated prior to the full environmental and historic preservation review and evaluation will result in a non-compliance finding and will not be eligible for HSGP funding.

For more information regarding FEMA's EHP requirements, the Subrecipient should refer to the DHS/FEMA FY18 NOFO (Exhibit M) and FEMA's Information Bulletins 329, 345, 356, 371, and 404 available on the internet at <http://www.fema.gov/grant-programs-directorate-information-bulletins>

- R. The Subrecipient agrees to cooperate with GEMA/HS in assuring that any training using HSGP funds is reported through the Training Information Reporting System ("Web-Forms") located at <https://www.firstrespondertraining.gov/admin/main.jsp>
- S. The Subrecipient agrees that funds from the FY 2018 HSGP utilized to establish or enhance state and local fusion centers will be used in compliance with the requirements and restrictions in the DHS/FEMA NOFO (Exhibit M), pages 39-40 and with FEMA's Information Bulletins 281 and 288. Specifically without limitation, the Subrecipient receiving funding to be used for costs related to a fusion center agree to comply with the following:
1. To use such funds to support the development of a statewide fusion process that corresponds with the Global Justice/Homeland Security Advisory Council (HSAC) Fusion Center Guidelines and the National Strategy for Information Sharing, and achievement of a baseline level of capability as defined by Global's *Baseline Capabilities for State and Major Urban Area Fusion Centers*, a supplement to the Fusion Center Guidelines, located at <http://www.it.ojp.gov/documents/baselinecapabilitiesa.pdf>
 2. To use such funds to support achievement of baseline levels of capability as defined in the fusion capability planning tool.
 3. The Subrecipient shall provide GEMA/HS with certification stating that the Subrecipient will assume responsibility for supporting the costs of any hired analysts following the three-year federal funding period or the termination of the Subrecipient Agreement, whichever occurs first.
 4. The Subrecipient shall provide GEMA/HS with certificates of completion of training for each intelligence analyst hired with grant funding to enable information/intelligence sharing capabilities in accordance with Global's *Minimum Criminal Intelligence Training Standards for Law Enforcement and Other Criminal Justice Agencies in the United States*, as required under the DHS/FEMA FY18 NOFO (Exhibit M) and Information Bulletin 288.
 5. All Subrecipients leveraging FY 2018 HSGP funds in support of information sharing and intelligence fusion and analysis centers must leverage available federal information sharing systems, including Law Enforcement Online (LEO) and the Homeland Security Information Network (HSIN) and comply with 28 CFR 23.
- T. Any Subrecipient receiving HSGP grant funding for purchasing or upgrading a mobile communication vehicle (MCV), equipment for an MCV, or other MCV related costs, agrees to comply with the following requirements:

1. Each agency receiving an MCV funded with HSGP funding will be required to participate with the MCV in at least one regional GEMA/HS sponsored MCV exercise annually and at least one GEMA/HS sponsored statewide MCV exercise biennially. Any agency who cannot meet this compliance requirement due to an unforeseen event in any year must request approval from GEMA/HS, providing a reasonable justification for failing to remain in compliance.
 2. Each agency receiving an HSGP funded MCV will provide GEMA/HS with updated vehicle equipment capability and inventory data as requested.
- U. In the event that the Subrecipient uses subcontractors or contractors, the Subrecipient shall use small, minority, women-owned or disadvantaged business concerns and contractors or subcontractors to the extent practicable as prescribed by applicable Federal and State laws.
- V. The Subrecipient understands that any public contracts and subcontracts funded by the HSGP must comply with the requirements of O.C.G.A. §13-10-90, et seq., and Georgia Department of Labor Rules 300-10-1, et seq., to verify the contractor's or subcontractor's new employees' work eligibility through a federal work authorization program. The Subrecipient shall utilize the U.S. DHS E-Verify System to verify the employment eligibility of all persons hired during the Agreement term.

CHANGES TO AGREEMENT: The Subrecipient understands and agrees that, in addition to the provisions in the "Termination" section below, GEMA/HS shall have the right to make unilateral changes, cancel or terminate this agreement in the event that FEMA and/or DHS makes changes to the FY18 HSGP grant awarded to GEMA/HS. With the exception of termination or changes included in this agreement, there shall be no other changes to this Agreement unless mutually agreed upon by all parties to the Agreement.

EMPLOYMENT: The employment of unauthorized aliens by the Subrecipient Agency is considered a violation of Section 274A(e) of the Immigration and Nationality Act. If the Subrecipient Agency knowingly employs unauthorized aliens, such violation shall cause the unilateral cancellation of the Agreement. Any services performed by any such unauthorized aliens shall not be paid.

The Subrecipient Agency shall utilize the U.S. Department of Homeland Security's E-Verify System to verify the employment eligibility of all persons hired during the Agreement term.

TERMINATION: This agreement may be terminated for any or all of the following reasons:

- A. Cause/Default: This agreement may be terminated for cause, in whole or in part, at any time by the State of Georgia for failure of the Subrecipient to perform any of the provisions or to comply with any of the terms and conditions herein. If the State exercises its right to terminate this agreement under the provisions of this paragraph, the termination shall be accomplished in writing and specify the reason and termination date. The Subrecipient will be required to submit the final invoice no later than 30 days after the effective date of written notice of termination. Upon termination of this agreement, the State shall not incur any new obligations after the effective date of the termination and shall cancel outstanding obligations, as possible. The above remedies are in addition to any other remedies provided by law or the terms of this agreement.
- B. Notwithstanding and without waiving any other remedies available for the Subrecipient's failure to comply with the terms and conditions of this agreement, if the Subrecipient fails to meet its obligations, voluntarily or otherwise, as part of a GEMA/HS program, GEMA/HS will have the right, privilege and option to immediately terminate this Agreement. Failure to exercise the right

of termination for previous occurrences or omissions will not act as a waiver for future noncompliance by the Subrecipient. Should GEMA/HS exercise the right, privilege and option to terminate this Agreement, the Subrecipient shall immediately transfer ownership of any HSGP grant funded vehicle(s) and related equipment purchased under this agreement to GEMA/HS or to whomever GEMA/HS shall designate, including the transfer of title, tag and related documents, and shall deliver and turn over possession and title of said vehicle(s) and related equipment, without cost, as directed by GEMA/HS.

- C. Convenience: This agreement may be cancelled or terminated by either of the parties without cause; however, the party seeking to terminate or cancel this agreement must give written notice of its intention to do so to all other parties at least 30 days prior to the effective date of cancellation or termination.
- D. Non-Availability of Funding: Notwithstanding any other provision of this agreement, in the event that either of the sources of funding for reimbursement under this agreement (appropriations from the General Assembly of the State of Georgia or the Congress of the United States of America) no longer exist, in the event the sum of all obligations of GEMA/HS incurred under this and all other agreements entered into for this program exceeds the balance of such funding, then this agreement shall immediately terminate without further obligation of GEMA/HS. The certification by the Director of GEMA/HS of the occurrence of either of the events stated above shall be conclusive.

Failure to exercise the right

of termination for previous occurrences or omissions will not act as a waiver for future noncompliance by the Subrecipient. CAPITAL IMPROVEMENTS ELEMENT (2019 UPDATE)
CITY OF GAINESVILLE, GEORGIA
October 29, 2018, 3rd DRAFT

This document constitutes the capital improvement element (CIE) of the Gainesville comprehensive plan. It covers police, fire and rescue, and parks and recreation. This CIE is a major update of the initial version adopted in 2006, which has been annually updated since adoption. This CIE goes into effect FY 2020 and does not supersede or repeal the existing CIE in place. Projects eligible for impact fee funding as described in the adopted CIE may be funded with impact fee funds (or encumbered) in the amounts shown through June 30, 2019.

ADMINISTRATIVE RULE REQUIREMENTS FOR CAPITAL IMPROVEMENT ELEMENTS

In order to support an impact fee program, a local government comprehensive plan must meet Georgia's administrative rules for capital improvement elements. The rules, among other things, require that, for each facility included in the development impact fee program, the following must be included: a service area must be established; a quantifiable level of service (LOS) standard must be specified; long-term needs shall be assessed; and a schedule of improvements identifying projects to be funded with impact fees during the next five years must be submitted and then annually updated after adoption.

FUNCTIONAL POPULATION

The functional population of the city is considered to be the sum of population and employment that create demand for public safety services. For purposes of this plan amendment, the functional population is the resident population plus those employed in the jurisdiction (i.e., businesses, industries, and institutions). Even though much of the city's resident labor force leaves the city during the day for work, there is still the need to provide public safety services in their absence (i.e., protection of property from fire and crime). All residents benefit from Gainesville's public safety services even if they work outside the city during the day. That is, the Police and Fire Departments of Gainesville will respond to public safety calls whether or not residents are home. Table 1 provides projections of the functional population, which provide the basis for measuring the existing levels of service and formulating level of service standards.

POLICE

Inventory of Building Space

When the initial CIE was prepared and adopted in 2006, the police department had 14,998 square feet of facility space in a Public Safety Building (which was co-located with Fire Station #1) located at 118 Jesse Jewell Parkway. The 2006 CIE documented the facility's deficiencies which included age, obsolescence, and various operational inadequacies. In 2009, the city constructed a new public safety building (Justice Center) containing new space for the police department and also relocated Fire Station #1 at a new public safety headquarters at 701 Queen City Parkway. Table 2 shows an inventory of facility space for the police department

Table 2

Building	Location	Square Footage	Year Constructed
Justice Center	701 Queen City Pkwy.	52,340	2010
Justice Center Garage	701 Queen City Pkwy.	1,201	2010
Outdoor firing range (tower/ restroom)	1645 Fullenwider Rd.	620	2011
Firing range simulator bldg.	1645 Fullenwider Rd.	1,600	2018
Total Space		55,761	

The police department maintains a precinct at the Featherbone Community located on Chestnut Street. Since this is not owned by the city, however, it is not counted in the inventory.

Service Area

The service area for the City of Gainesville Police Department is the city limits. The service area will increase over time with any annexations.

Level of Service Measure

The level of service measure established in the 2006 CIE was square feet of building space per functional population. That measure is retained in this 2018 update.

Existing Level of Service

As of July 1, 2019, the police department has a level of service of 0.5991 square feet of police department space per functional population (55,761 square feet per 93,061 functional population).

Previous Level of Service Standard

The level of service standard for the police facility portion of the public safety impact fee adopted in Gainesville's initial CIE (2006) was 0.316 square feet of building space per functional population. That standard was based in part on a public safety master plan prepared in 2000,

updated to 2006 conditions and to account for functional population rather than just the resident population.

Assessment of Needs

The 2006 level of service standard for police facilities is considered inadequate, as reflected by the city's expenditures since then to increase public facility physical space. The new police facility space level of service standard (i.e., square feet per functional population) is based on police department future capital needs, as specified by the department.

In discussions with the police department (December 2017), there are two primary facility needs for the police department as described further below and summarized in Table 3.

- ***Future decentralized patrol facilities***

Given increasing levels of traffic congestion on the major thoroughfares in Gainesville, the police department desires to implement a decentralization strategy, whereby new patrol division facilities are added in the New Holland and State Route 53 areas of Gainesville to maintain and increase police response times. This suggests that, over a 20-year period (i.e., by 2039), the city should plan for two police annex/precinct buildings in these growing areas of the city. In the SR 53 area, a police/fire co-location strategy is contemplated.

Estimated space need for two decentralized facilities: 2,400 square feet each; 4,800 square feet total. Requires site (land) acquisition.

- ***Training facility***

The police department indicates that the training division has been displaced from the existing headquarters building, and that a new training academy (separate training facility) is needed. Based on discussions with the police department, a 10,000 square foot facility is needed, including office space and firearms training (2,220 square feet existing or under construction).

Estimated space need for facility: 7,780 square feet. Existing land is available for this facility (i.e., no land acquisition costs).

Police Facility Space Level of Service (LOS) Standard

The city adopts a police facility space LOS standard the same as its existing level of service as of July 1, 2019, which is 0.5991 square feet per functional population.

Future Needs To Meet Level of Service Standard

Table 4 shows future needs at the adopted level of service standard of 0.5991 square feet per functional population. Note that the capital facility needs are based on the 20-year planning horizon.

Table 4 provides a projection of how much police facility space will be needed during each five-year increment of the 20-year planning horizon.

Schedule of Improvements

The city's fiscal year 2019 budget ends June 30, 2019. This capital improvements element is scheduled to go into effect on July 1, 2019 (i.e., the start of Fiscal Year 2020). Therefore, Table 5 begins with FY 2020. The schedule of improvements (2020-2024) is shown in Table 5.

Table 5 includes land acquisition and construction of the two police patrol stations during the next five fiscal years. These two projects (4,800 square feet) match the 4,836 square feet of police facility space needed by 2024. These projects can be funded 100% with impact fee funds.

FIRE AND RESCUE**Inventory of Existing Building Space**

Gainesville currently operates four (4) fire stations (see Table 6), the same number as it had in 2006 when the initial CIE was adopted.

Fire station #2 is in the process of being relocated to the Park Hill Drive area. Upon completion, the relocated Fire Station #2 is expected to consist of 13,500 square feet with four vehicle bays. The Fire Station #2 relocation project is being funded by SPLOST 7 funds. Table 6 reflects this project in the inventory.

Inventory of Vehicles

The 2006 CIE counted eight (8) vehicles toward the vehicle equipment inventory. Heavy vehicles owned by the fire department should be replaced over time. An engine has an estimated useful life of 10 years, while a ladder truck is expected to serve for 15 years. Ambulances (rescue vehicles) are excluded, since the life expectancy of rescue vehicles is less than 10 years. The city now has eleven (11) vehicles, as shown in Table 7. As later noted, the inventory as of July 1, 2019, will include a fire boat for a total of 12 heavy vehicles, which is included for funding by the city in the FY 2019 budget (July 1, 2018 to June 30, 2019).

Service Area

The service area for the City of Gainesville Fire Department is the city limits. The service area will increase over time with any annexations.

Level of Service Measures

The Gainesville fire and rescue impact fee program uses two level of service measures: 1) square feet of fire facility (building) space per functional population; and 2) heavy vehicles (with a 10-year useful life or more) per functional population.

Existing Levels of Service

As of July 1, 2019, the fire department has a level of service of 0.5967 square feet of fire department building space per functional population (55,531 square feet / 93,061 functional population). This level of service figure includes the relocation of Fire Station #2 as described above. With the funding of a fire boat in the FY 2019 capital budget, as of July 1, 2019, the city is anticipated to have 12 vehicles (see Table 7). The existing level of service as of July 1, 2019 is one fire vehicle per 7,755 functional population.

Assessment of Needs

The Gainesville fire department had 9,000 calls for service in 2017; by the year 2022 the fire chief expects as many as 15,000 calls annually, given an increase of approximately 1,200 calls annually since the year 2010 (December 2017 notes).

In FY 2017, the city began the process of relocating Fire Station #2 with a budget of \$3,450,000 (Annual Budget and Capital, FY 2018, City of Gainesville, GA, p. 82). The city's FY 2019-2023 capital improvement program includes replacement of three heavy vehicles and purchase of a

fire rescue boat. The program also includes construction of a storage building and Fire Stations #5 and #6, as well as planning for Fire Station #7. See Table 8. Fire station #5 will reportedly consist of 8,000 square feet (a 3-bay facility) and will need to be equipped with one engine (\$650,000) and one aerial apparatus (\$1,500,000). It is assumed that fire stations #6 and #7 will be similarly sized and equipped.

Source: City of Gainesville, GA, Annual Budget for the Fiscal Year Ended June 30, 2019, FY 2019 Capital Improvements Summary, p. 89.

In addition to two new fire stations (6 total), the fire department has identified the need for additional storage space (Table 8). In addition, the city needs a boat dock and boat shelter at Lake Lanier to house a fire boat to serve existing and new residential development on Lake Lanier. The fire chief indicates that there are approximately 100 homes (including but not limited to Cresswind at Lake Lanier) in Gainesville that would be better to serve via the lake (i.e., boat) than by land, due to steep, narrow driveways. Accordingly, the city has programmed in FY 2019 to purchase a fire boat. The fire boat would draw water directly from the lake instead of fire hydrants. The city has land available at the Linwood Treatment Plant for a permanent home for the new fire boat, but it needs a U.S. Army Corps of Engineers permit to construct the boat dock. In addition to these needs, the Fire Chief finds that additional training space is needed. Currently, only Station #1 is equipped for training. The city's capital improvement program also implies that a 7th fire station will ultimately be needed.

Previous Level of Service Standards

In 2006, the City of Gainesville adopted the following level of service standards for the fire/rescue/EMS portion of the public safety facility impact fee:

1. 0.3915 square feet of building space per functional population; and
2. One heavy vehicle (fire apparatus) per 10,069 functional population.

Revised Level of Service Standards

Ideally, the LOS standard for building space would be based on all future identified needs as described above, including storage space, fire stations #5, #6, and #7 (8,000 square feet each), and additional training space. However, inclusion of all of these facilities would raise the level of service standard from well above the existing level of service of 0.5967 square feet of fire facility

space per functional resident. Setting the new level of service standard above the existing level of service would create an existing “deficiency” and cause the city to plan for and fund (without using impact fees) additional fire building space. That is not desirable, considering that the city can anticipate considerable additional capital costs to replace or upgrade other existing fire stations. Another factor, that poses a major limitation on establishing a level of service standard higher than the existing level of service, is that the city has a professional fire department and must budget for substantial additional operation costs (i.e., added staffing of fire personnel) as new fire stations are added to the inventory.

Given these constraints, the city’s LOS standard for fire building space is set (adopted) at the existing level of service of 0.5967 square feet of fire building space per functional population (55,531/ 93,061).

The level of service standard for fire vehicles (with a useful life of 10 year or more) is one fire vehicle per 7,755 functional population, consistent with the existing level of service.

Projection of Needs based on Level of Service Standards

Table 9 provides a projection of fire building space needs based on the adopted LOS standard.

The data in Table 9 are to be used as a guide for programming future fire building capital facilities. The city is not required to add the exact square footage shown in Table 9 during the respective time periods. The city has the flexibility and discretion to plan and program future fire capital facilities as it determines appropriate in the future.

Table 10 provides a projection of fire vehicle needs based on the adopted LOS standard.

Schedule of Improvements

The schedule of improvements for fire building space and fire apparatus is provided in Table 11. Construction of fire station #5 has been and continues to be a priority. Although other projects such as training and storage space additions are needed, they are not proposed to be funded with impact fees because city administration desires to allocate the maximum available amount of impact fees towards fire station #5. Accordingly, the city can fund 4,814 square feet of fire station #5 with impact fees collected between 2019 and 2024. This amounts to 60% of the total project costs of planning and constructing fire station #5. If any impact fees already collected are carried forward from the fire impact fee fund as of July 1, 2019, those impact fees can be appropriated for fire station #5 or any other impact fee-eligible project shown in the adopted CIE.

The city needs an aerial apparatus (\$1,500,000) as well as a pumper (\$650,000) to place in fire station #5 once constructed. Based on Table 10, Gainesville can purchase 1 fire vehicle by 2024 using impact fees. Since there is a substantial difference in the costs of aerial trucks (\$1,500,000) and pumper trucks (\$650,000), an average cost of the two vehicles (\$1,075,000) is used in the schedule to determine eligibility for impact fee funding. This means, effectively, that the city can purchase the fire engine at full cost and pay for a portion (28.33%) of the cost of the aerial fire truck using impact fees. See Table 11.

PARKS AND RECREATION

Service Area

The service area for parks and recreation is the city limits of Gainesville. The service area will expand over time due to annexations.

Inventory

Table 12 provides an inventory of acreage and building improvements of parks in the City of Gainesville. The inventory excludes Clark's Bridge Park, which was developed via intergovernmental agreement with Hall County prior to the 1996 Olympics. Also excluded are the Allen Creek Soccer Complex (jointly used and operated with Hall County), the Allen Creek Regional Park, and Chattahoochee Golf Course.

The inventory of park land (Table 12) is divided into developed acreage and passive park acreage. The inventory is based on a 2018 inventory supplied by the parks and recreation department but updated with parcel numbers and acreage and building figures from the Hall County Tax Assessor's (Q Public) data base of properties. Also, the measurement tool in Q Public was used in some cases to provide estimates of developed park property. Note that all buildings and their immediate areas, as well as entrance ways (paved pedestrian sidewalks and plazas) are included in the developed park acreage.

Level of Service Measure

The level of service measure used in the 2006 Gainesville parks and recreation impact fee program was acres of developed park land per 1,000 residents. Note that nonresidential development does not create appreciable demands on the city's park and recreation system. Therefore, the residential population is used (rather than the functional population).

The 2019 update of the park and recreation impact fee program considers three LOS measures: developed park acres per 1,000 residential population, passive (undeveloped) park acres per 1,000 residential population, and total park acres per 1,000 residential population.

The most appropriate LOS measure to use in the 2019 update is developed park acres per 1,000 residential population. This selection is consistent with the LOS measure used in the initial 2006 impact fee program for parks and recreation.

Existing Levels of Service

The residential population estimate of the City of Gainesville as of July 1, 2019, is 44,080. The existing level of service for the developed park acreage is 2.18 acres of developed park land per 1,000 residents (96.32 acres / 44,080).

The existing level of service for passive/ undeveloped park land is 5.04 acres per 1,000 residents (222.32 / 44,080). Combined, the existing level of service is 7.22 acres of total park land per 1,000 residents (318.64 / 44,080).

Level of Service Standard

This 2019 update of the parks and recreation capital improvement element institutes a modified the level of service standard from the standard adopted in the 2006 initial impact fee program. Instead of developed parkland acres per 1,000 resident population, this update utilizes developed or redeveloped parkland acres per 1,000 resident population.

This change of level of service standard, to add redeveloped parkland acres, is justified on several grounds. The strategic emphasis of Gainesville's park system is such that increasing attention is being paid to upgrading existing (already developed) park lands and system components. As an example, improving a playground to add restrooms, improve equipment, and/or provide better access is a substantial system improvement that improves park and recreation facilities for the benefit of all existing and new residents. Such improvements sometimes do not add acreage to the city's park and recreation system and therefore would not be considered eligible for impact fee funding if the level of service standard was only applied to developed park acres per 1,000 residential population. By including "redeveloped" park acres, the significant expenditure for improvements that serve existing and future residents can be appropriately counted as a systemwide improvement.

For clarity, the city attributes the following meanings to the term "redeveloped" park acres. A redeveloped park acre substantially improves an existing park facility or feature by adding an additional building, or additional equipment or accessory structures and uses. An example is the addition of a restroom building to an existing park that did not previously have a restroom facility. Replacement of equipment, such as a playground, is also considered under this definition if the equipment is appreciatively improved in size or quality. Generally, to qualify as a redeveloped park improvement, the capital improvement to an existing park, playground, or other recreation space, should be at least 50 percent (50%) higher than the value of existing improvements as originally installed.

Accordingly, the city hereby adopts the following LOS standard for parks and recreation: 2.18 developed or redeveloped park acres per 1,000 resident population

An often-used approach with impact fee programs is to establish the LOS standard at the existing level of service. Per this option, the LOS standard would be 2.18 acres of developed or redeveloped park land per 1,000 residents (96.32 acres / 44.080). This would be done primarily to ensure that new development will be served by the same level of service as the existing population and to ensure that existing levels of service will not be degraded as the city's population increases.

Assessment and Projection of Needs

Table 13 provides future park and recreation needs for the 20-year planning horizon based on the adopted level of service standard. Per Table 13, Gainesville will need to add 45.81 acres of developed park land during the 20-year planning horizon (i.e., from 2019 to 2039). During the next five years, the city will need a schedule of improvements that adds 14.86 acres of developed or redeveloped park land.

Table 13
Projection of Parks and Recreation Needs, 2019-2039
City of Gainesville
(Developed Acres)

	2019	2024	2029	2034	2039
Total population	44,080	50,900	55,300	59,600	65,100
LOS standard (developed acres per 1,000 population)	2.18	2.18	2.18	2.18	2.18
Total developed park acres needed	96.09	110.96	120.55	129.92	141.91
Developed or redeveloped acres of parkland to add during five-year period (base in 2019 = 96.32)	0	14.86	9.59	9.37	11.99
Cumulative additional developed or redeveloped park acreage needed	0	14.86	24.45	33.82	45.81

The city can elect to add developed park acreage via the existing inventory of park land (i.e., develop existing passive park land), or it can acquire additional land for park development, or it can redevelop existing inventory, or some combination thereof. The city could conceivably draw on its existing supply of passive/ undeveloped parkland to satisfy much of the needs for future developed parkland acreage.

The City's Parks and Recreation Strategic Plan (2018-2022) articulates two principal park objectives of the city: strengthen the quality of existing parks (improve park maintenance) and develop specialty parks, open spaces, and greenways to address growth and emerging areas of recreational interests. It would be appropriate if Gainesville had an impact fee program that was designed if possible to infuse dollars for park maintenance. However, using impact fees for maintenance is not authorized under Georgia law.

With regard to system improvement needs during the next five years, the parks and recreation department has prepared a capital improvements program request for FY 2019 to FY 2023 (January 2018) which serves as the primary basis for suggesting which capital improvements will be included in the five-year schedule of improvements to be funded in whole or part with impact fees. The capital requests include the following projects that are proposed (or may be included) for impact fee funding: systemwide playground improvements (FY 2019); a new playground in the Midtown greenway and an outdoor pool at Frances Meadows (FY 2020 and FY 2021); new recreation center development (FY 2022); and construction of a dog park (FY 2022). In addition, the city has identified the desire to acquire and develop one acre of land within or next to Clark's Bridge Park.

Schedule of Improvements

The schedule of improvements needs to provide for 14.86 acres of developed or redeveloped parkland during the five-year period (2019-2023). The schedule of improvements is provided in Table 14. The acreage is the key to consistency with the impact fee program, since the level of service standard is developed or redeveloped acres per 1,000 resident population. The city can pay for the development or redevelopment of 14.86 acres of parks during the 5-year schedule of improvements (@ \$260,000 per acre). Although the schedule of improvements shows the costs spread out evenly over the five years, the city has the flexibility of spending more or less in a given year, so long as the maximum funding of \$3,863,600 is not exceeded for the five fiscal

years. Also, the city has the flexibility to decide which project or projects listed in the schedule of improvements will be funded in whole or part with impact fees.

The city can fund all or a part of any of the following projects included in this schedule below, so long as it does not encumber more than \$3,863,600 of impact fees collected during the five fiscal years. The project or projects funded during the five-year time period must result in at least 14.86 acres of developed or redeveloped park land to meet the level of service standard. The combination of projects need to be selected with the intent of meeting at least the 14.86 acres of developed or redeveloped park land. Eligible and anticipated projects include the following (up to the maximum expenditure of \$3,863,600 during the five-year period):								
Eligible projects:								
• Acquire and develop 1 acre at Clarks Bridge Park							100%*	IF; CB
• Youth athletic complex							100%*	IF; CB

POLICIES REGARDING IMPACT FEE EXEMPTIONS AND REDUCTIONS

According to the Georgia Development Impact Fee Act of 1990, Sec. 36-71-4(l), the city can exempt all or part of particular development projects from development impact fees if: (1) Such projects are determined to create extraordinary economic development and employment growth or affordable housing; (2) The public policy which supports the exemption is contained in the municipality's or county's comprehensive plan; and (3) The exempt development project's proportionate share of the system improvement is funded through a revenue source other than development impact fees.

Accordingly, the city hereby adopts the following policies for impact fee exemptions, reductions and credits:

1. There will be no exemptions for the payment of fire facility impact fees.
2. Waiver of impact fees for affordable housing. Any new dwelling unit which meets the city's definition of "affordable housing" (see redevelopment incentives ordinance submitted in draft form), built within a qualifying residential or nonresidential redevelopment project certified per the requirements of the city's redevelopment incentives ordinance, shall be exempt (eligible for waiver) from paying police and parks and recreation development impact fees otherwise applied to such development, subject to the following: The proportionate share of the system improvement attributed to the affordable housing unit is funded through a revenue source other than development impact fees. To this end, the city may fund the impact fees waived by either: (1) depositing into the appropriate impact fee trust fund(s) an amount equal to the development impact fee waived, from such city funds other than development impact fees; or (2) documenting that a proportionate share of system improvements attributed to the affordable housing unit is funded by the city via police and/or park and recreation improvements (as applicable) serving the qualified redevelopment project that have not been funded with development impact fees.
3. For a qualified redevelopment project (see redevelopment incentives ordinance submitted in draft form), whether residential or nonresidential, the Community Development Director shall be authorized to grant partial or full public safety development impact fee credits, for the dedication of right of way to bring a substandard street up to current city standards for the applicable street classification, the installation of sidewalk(s) meeting the requirements of the city, and streetscape improvements including pedestrian-scale lighting along all street frontages of the redevelopment project boundary. The rationale for providing this credit is that standard roads with pedestrian infrastructure served by appropriate lighting, in areas already served by public safety services provided by the city, result in reduced public safety demands when compared with substandard roads without sidewalks and without pedestrian lighting due to safer conditions.

RE: Employment Forecasts in Support of an Updated Capital Improvements Element of the Gainesville Comprehensive Plan

It is challenging to produce a reliable estimate of current employment within the City of Gainesville or any other city the size of Gainesville. Census data are available for employment by place of residence, but not place of work. Employment data (by place of work) are generally not compiled for cities and thus have to be estimated based on county totals. One exception is the 2012 economic census, which provides data for the City of Gainesville as an “economic place.” A 2017 economic census has been or will soon be completed, but data are not yet available. The basic employment estimation and projection method for Gainesville thus involves estimating and forecasting county employment by industry, then estimating the City of Gainesville’s share of total county employment by industry (a so-called “share” method).

Table 1 shows year-2012 data for the number of employees (by place of work) in Gainesville by industry sector (NAICS Code). Some of Gainesville’s employment by industry percent shares of total county employment by industry are available, but not others (omissions are due to reporting and confidentiality limitations). Data for some industries can be derived from the 2012 Economic Census, while others have to be estimated (see Table 2).

Economic census data (Table 1) present an incomplete tally of employment; they do not include government employees, establishments without payroll, and self-employed persons. The 2012 Economic Census data therefore must be supplemented with governmental employment data and self-employed data.

Another substantial limitation of Table 1 data is that the 2012 data cannot be assumed to hold true into the future. Another way of checking or deriving city shares of county employment data is to examine zip code employment data published by the U.S. Census Bureau in County Business Patterns. The City of Gainesville is spread across several zip codes as shown in Table 3.

Importantly, Table 3 data reveal trends over time. In particular, it is important to note that the economy of Hall County is decentralizing in many major respects. While Gainesville will remain a regional center for employment, many industry sectors are decentralizing into unincorporated areas and other Hall County municipalities – including manufacturing, retail trade, and warehousing in particular. Table 3 data show that it would be unreliable to assume the Gainesville city limits will maintain the same (constant) share of employment in various industry sectors as it did in 2012. In other words, declining percentage shares of total county employment are anticipated over time, given the general force of decentralization and growth trends in south Hall County outside Gainesville.

A major limitation of Table 3 data is that the city limit geography is not the same as zip code geography. To be useful, zip code geographies must be reconciled with city limit geography. Even with use of a Geographic Information System, such reconciliation would be imprecise. Table 4 provides a forecast of percent shares of total employment within the City of Gainesville by zip code, based on cursory review of a city limits map in relation to zip code boundaries. Table 4 data also provide an estimate of employment, excluding government employees and self-employed persons, in the City of Gainesville in 2015 (place of work).

As noted above, the method used here is to estimate and project county employment by industry, then estimate the city of Gainesville's share of county employment.

Table 5 provides employment by industry for Hall County from three sources: County Business Patterns for the year 2015 (which excludes government employees and establishments without payroll), the Georgia Department of Labor (2017 data), and the U.S. Bureau of Labor Statistics (2017 data). The latter two include government employment which helps to complete the employment picture that cannot be done via census bureau data alone. The Georgia Department of Labor and U.S. Bureau of Labor Statistics data are similar but have some differences in terms of categorization. Reporting both, which have similar data, increases reliability.

Excluding self-employed persons, there were approximately 85,500 jobs in Hall County in the year 2017. These Table 5 data provide the primary basis for estimating ahead the 2018 (first year) employment data for Gainesville. Table 5 data also might reveal trends, such as the orders of magnitude of recent increases in employment by industry. However, caution is urged when trying to decipher trends over time, since the 2015 source of data is different than the two 2017 sources of data. Plus, the classifications also differ by source.

It is therefore useful to apply employment forecasts by industry that are based on forecasted employment trends nationally and statewide. Table 6 provides data to assist in forecasting employment by industry locally. The rationale for compiling these U.S. and Georgia employment change rates is that local economies will typically track relatively closely with the national or state economy, or both.

The sources in Table 6 are not the same and the classifications also may differ, leading to comparability issues. The time frames are also different. Employment by industry in Georgia is forecasted to be faster growing in most industry sectors than nationally. This is reasonable considering Georgia is a relatively fast-growing southern state and some states in the U.S. have declining populations and employment levels. One may make adjustments for local conditions, and upward forecasts are justified given Gainesville's location in a fast-growing metropolitan area of Georgia, and given Gainesville is a regional center serving multiple counties.

▪ **Applicant's Proposal and Background Information**

The proposal is to rezone the subject properties from Residential-II (R-II) and Heavy Industrial (H-I) to Residential-II (R-II) for the purpose of constructing five residential duplex homes for rent. The properties are currently undeveloped but previously contained residential structures many years ago. According to the applicant, the main purpose for the development is to provide affordable quality housing that is architecturally consistent with the neighborhood. The applicant desires to subdivide the existing parcels and position the homes in the same manner as the other homes on Mill Street. In order to do so, future setback variances will be necessary to construct the homes closer to the street. Each home will be constructed with fiber-cement siding on all four sides and each unit will be approximately 1,100 square feet in size with two bedrooms/two baths and two parking spaces per unit. The elevation of the homes will not exceed 1.5 stories. A total of five driveways are proposed off of Mill Street and two driveways are proposed on Athens Street in order to accommodate parking for the first two units. Solid waste service will be provided by the City of Gainesville.

▪ **Adjacent Land Use and Zoning**

Location	Use	Zoning
North	Single-family homes	Neighborhood Conservation (N-C)
South	Burger King restaurant; Fockele Garden Company	Heavy Industrial (H-I)
East	Newell Recycling Scrap Iron & Metal	Heavy Industrial (H-I)
West	Harper-Smith historic house	Heavy Industrial (H-I)

▪ **Other Departmental Comments**

There were no other departmental comments regarding this request.

▪ **Zoning History**

The following zoning actions have taken place in the immediate area during the last ten years:

2016 – A request by the Gainesville Housing Authority to rezone 11.671± acres located at 233, 240, 315, and 323 Atlanta Street; 207, 209, 221, 223 and 229 Summit Street from Residential-II (R-II), Neighborhood Business (N-B) and General Business (G-B) to Planned Unit Development (P-U-D) for low income apartments was approved with conditions. The request also included the abandonment of a 0.603± acre portion of Atlanta Street right-of-way.

2010 – A request by My Sister's Place of Gainesville, Inc. for a Special Use for a crisis center for women and children on 1.17± acres located at 2480 Martin Luther King, Jr. Blvd. within Residential-II (R-II) zoning was approved with conditions.

2009 – A request by the City of Gainesville to rezone 28.63± acres (129 Parcels) located between the southeast side of Jesse Jewell Parkway and E. E. Butler Parkway, having road frontage along Boone Street, Carlton Street, Chamblee Court, College Avenue, Fair Street, High Street, Hobbs Alley, Hunter Street, Prior Street, Summit Court, Summit Street, and Watson Place, from Residential-II (R-II) and Planned Unit Development (P-U-D) to Neighborhood Conservation (N-C) was approved with conditions.

▪ **Staff Analysis**

(1) Is the proposed use suitable in view of the zoning and development of adjacent and nearby property?

The surrounding area consists of a mixture of residential, commercial and industrial uses including single-family homes, Harper-Smith historic house, Newell Recycling Scrap Iron & Metal, Fockele Garden Company and Burger King restaurant. While the majority of the property is zoned for heavy industrial purposes, the proposal for residential duplexes is more suitable with the residential properties located along Mill Street.

(2) Will the proposed use adversely affect the existing use or usability of adjacent or nearby property?

The proposal is small in scale consisting of a total of five residential duplex homes constructed to resemble single-family residences. Given the close proximity of existing residential homes, the proposal would appear to be a good transition from the adjacent commercial and industrial uses to the existing single-family residential homes along Mill Street. There should be no adverse impacts to the neighborhood as the duplex homes will be of similar scale/architecture as the adjacent single-family homes.

(3) Is the proposed use compatible with the purpose and intent of the Comprehensive Plan?

The Gainesville 2030 Future Development Map for the City of Gainesville places the subject property within the *Mixed Use General* land use category. This category includes areas containing or planned for a mixture of land uses including office, neighborhood retail, and residential.

According to the Character Area map for the City of Gainesville, the subject property is located within the *Traditional Neighborhoods* Character Area specifically within the *Fair Street Area NPU subarea*. The vision for this area affirms the traditional single-family character of the neighborhood through goals of historic preservation, architectural standards, code enforcement, and increased safety and beautification. Land uses allowed within this subarea include medium-density residential, public, institutional, parks/recreation/conservation, mixed-use and commercial limited to the fringe of arterial corridors. It appears the proposed use with the recommended conditions is compatible with the purpose and intent of the Comprehensive Plan.

(4) Are there substantial reasons why the property cannot or should not be used as currently zoned?

The applicant is proposing to downzone the balance of the property from H-I to R-II for a residential development. The majority of the property could be developed for industrial or commercial purposes under its current zoning which would seem to be less desirable to the neighborhood. There is a portion of the property zoned R-II which currently allows for a residential use such as a duplex. It appears the proposal is reasonable as the property has historically functioned as a residential use. The proposed development will provide for much needed quality housing downtown with an overall density range of 11.69 dwelling units per acre.

(5) Will the proposed use cause an excessive or burdensome use of public facilities or services, including but not limited to streets, schools, water or sewer utilities, and police or fire protection?

City water, sewer and public safety services are currently provided to the property. Gainesville Fire Station #1 is located off of Queen City Parkway and is approximately 1.25± miles from the subject property.

The proposal will slightly increase ingress and egress traffic movements along Mill Street and Athens Street. According to the Institute of Transportation Engineers (ITE) Trip Generation Handbook (9th Edition), the five residential duplexes on average could generate 67± new trips per day, 6± A.M. and 7± P.M. peak hour trips.

The proposal will have minimal impacts on the Gainesville City School System given there are only 10 residential units proposed. Nearby residential uses have children that attend City schools.

(6) Is the proposed use supported by new or changing conditions not anticipated by the Comprehensive Plan or reflected in the existing zoning on the property or surrounding properties?

The Comprehensive Plan identifies the need for quality housing that meets the needs of different household types, sizes and incomes. The subject property is conducive for residential purposes as it is situated within an area that is walkable to Desota Park, Boys and Girls Club, Fair Street School, community churches and employment opportunities. Development along Mill Street corridor has mostly been limited to single-family homes. The existence of commercial and industrial is expected to remain along Athens Street due to the nearby railroad and its proximity to the intersection of E.E. Butler Parkway and Martin Luther King, Jr. Boulevard.

(7) Does the proposed use reflect a reasonable balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property?

Based on the Comprehensive Plan and the adjacent mixture of uses, the proposed rezoning request with the recommended conditions appears to reflect a reasonable balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property.

▪ **Staff Recommendation**

The Planning Division staff is recommending **conditional approval** of this rezoning request based on the Comprehensive Plan and the adjacent mixture of uses.

Conditions

1. The proposed duplex structures shall be generally consistent with the standards depicted on the pictures provided with this application not to exceed a maximum of 1.5 stories in height with a minimum 3:12 pitched roof. In addition, each unit shall include a covered front porch.
2. 3. All driveway locations shall be submitted for review by the Gainesville Public Works Director, and approval of said design shall be required prior to issuance of a building permit. Excerpts from the November 13, 2018 PAB Meeting Minutes

Applicant Presentation: Eddie Martin, Jr., 946 Lanier Avenue, stated that he would like to add more homes in the Gainesville city limits by creating the same consistent homes that already exist down Athens Street and Mill Street.

FAVOR: None

OPPOSE: Vickie Smith, 3872 Fieldgreen Court, stated she was against adding more housing in the area of Mill Street. She expressed concern of adding congestion to an already heavy populated area.

Dorothy Bolden, 2940 Maverick Trail, stated that the proposed area is already congested enough due to traffic and on-street parking. She stated that the area is full of elderly residents including her mom. Her concern is that the duplexes would be too close to her mom's backyard and her mom's safety would be at risk. She added that she has no idea the population of tenants these homes would bring and it is causing more stress for the elderly residents that currently live in the area.

Planning and Appeals Board Comments: Vice-Chair Fleming questioned Mr. Martin on the price point for the monthly rentals for these units. Mr. Martin stated the price would be from \$800-\$900 dollars per month. Mr. Martin also added he is staying with the one level type homes to attract more of an elderly cliental.

Vice-Chair Fleming also questioned what else could possibly be built at the property as currently zoned. Planning Manager Matt Tate replied that most of the property is zoned for heavy industrial and/or office/commercial which could affect traffic even more than the proposed plans.

There was a motion to recommend conditional approval to rezone the subject property from Residential-II (R-II) and Heavy Industrial (H-I) to Residential-II (R-II) for five residential duplexes with the following conditions:

Conditions

1. The proposed duplex structures shall be generally consistent with the standards depicted on the pictures provided with this application not to exceed a maximum of 1.5 stories in height with a minimum 3:12 pitched roof. The exterior walls shall consist of cementitious siding materials with a minimum 3-foot high brick water table on the front and side exterior walls of the structure. In addition, each unit shall include a covered front porch.
2. The developer shall provide for a frontage landscape area along Athens Street which may include trees/shrubs and a decorative fence consisting of brick, wrought iron, aluminum or vinyl materials not to exceed 4-feet in height. The location, spacing, size and type of trees/shrubs planted and fence shall be subject to Community Development Department Director approval.

3. All driveway locations shall be submitted for review by the Gainesville Public Works Director, and approval of said design shall be required prior to issuance of a building permit. Redevelopment Narrative

The redevelopment project located at the corner of SE Athens Street and Mill Street contains 3 properties. The legal addresses are 827 SE Athens Street, 831 SE Athens Street, and 851 SE Athens Street. 827 Athens Street contains .094 acres or 4,096 square feet. 831 Athens Street contains .217 acres or 9,433 square feet. 851 Athens Street contains .544 acres or 23,696 square feet. The application for rezoning is to allow 5 single family duplexes (10 units total). The main purpose for this development is to provide affordable quality housing for residents of Gainesville. The zoning change request is from Heavy Industrial to R2.

This proposal is compatible with the purpose and intent of the Comprehensive Plan. As Mill Street is predominately residential and currently walkable in design, there will be no excessive impact or burden to public facilities and services. Individual units (around 1100 sf) will have 2 bedrooms thus attracting a rental market of older couples, newlywed couples, and single adults. All units will face Mill Street. The tenants will enter and exit on Mill St. with the exception of 2 of the 10, they will exit on Athens St. All parking is contained inside each lot because driveways are sufficient enough to not require on street parking. The buildings will be 1 story with fiber-cement lap siding on all 4 sides (a consistent look with existing homes) and 2 parking spaces per unit.

Public facilities, schools, water and sewer, police and fire, etc are all adequate to serve this development. Refuse containers will be properly screened and lighting will be controlled as to not adversely affect others. The height and size of the buildings is consistent with surrounding properties. The desire is to give the development an architectural style reminiscent of the houses currently exhibited on the street. Gainesville is in need of housing close to downtown. While single family houses and apartments are the most common developments, middle housing like duplexes are under-developed.

COMMENT FORM

Date: October 30, 2018

From: Margaret Osborne
772 Fair Street

Request: KRM 2016, LLC
827, 831 and 851 Athens Street

Received By: Judy Foster

Mrs. Osborne called about a public notice letter she received in the mail and asked for clarification of the request. After the proposal was explained to her, she stated she would not be able to attend the public hearing but felt the rezoning from heavy industrial to residential on the north side of Athens Street was appropriate as requested by the applicant. However, she felt the south side of Athens Street should remain commercial (not a part of the request). She asked that her comments be made available to the Board.

Total Acres 1.34± acres
Ward..... Four
Proposed Use..... Five single-family lots
Planning Division Staff Recommendation **Approval, with conditions**
Planning and Appeals Board Recommendation **Approval, with conditions**
Date..... November 13, 2018

▪ **Applicant's Proposal and Background Information**

The applicant is proposing to amend the existing Planned Unit Development (P-U-D) zoning on a 1.34± acres tract to allow five single-family lots instead of a small neighborhood retail center. The subject property is currently within the city limits of Gainesville and was part of a larger planned development which includes the adjacent 177 lot Copper Springs Subdivision. The purpose of the request is to allow the subject property to be made part of the adjacent/future "Brannon Ridge" development recently annexed into Oakwood. The development is to consist of 112 single-family lots and 75 townhomes.

Each home will not exceed two stories in height with two-car garages on minimum lot sizes of 4,800 square feet (40' wide x 120' deep). The architecture of the single-family homes will have a craftsman style consisting of an earth tone color palate, a mixture of masonry materials, accented by wood trim, fiber cement siding, glass and metal building materials on the front elevations giving each and every home a signature look for Brannon Village. The side elevations will consist of a masonry water table up to 30" tall with the balance being of fiber cement siding. The rear elevations will consist of fiber cement siding to compliment the rest of the architectural features of the homes. Approximately 2.65± acres within the entire development will be useable green space. Buffers are to include a 15' landscape strip around the rear and side adjacent to residential properties, a 25' landscape strip around the entire frontage of the property fronting all three roads. Amenities are to include a swimming pool and clubhouse, a common mail kiosk, sidewalks throughout the community, and common storm water management facilities. Access to the subject property is proposed through the subdivision from Waverly Way which is a County road.

▪ **Adjacent Land Use and Zoning**

Location	Use	Zoning
North	Copper Springs Single-family Sub.	Planned Unit Development (P-U-D) - City
South	Gas station	Commercial-1 (C-1) - Oakwood
East	Undeveloped land	Commercial-1 (C-1) - Oakwood
West	Single-family homes	Residential-I (R-I) - County Future Planned Unit Development (P-U-D)- Oakwood

▪ **Other Departmental Comments**

The Gainesville Public Works Department states that all right-of-way, streets and solid waste pick-up should remain private.

The Gainesville Fire Department states that access to the City portion of the development would be a concern. The roadways should be built to City of Gainesville standards. Otherwise access will be necessary from McEver Road. There could also be some service delivery issues with the fire departments regarding jurisdiction with only five lots being covered by Gainesville and the rest covered by Hall County.

A letter from the Gainesville City School System was provided for this request which is included as an attachment. In summary, the letter states the proposed project would create a dually-served subdivision with Gainesville City School System students in the cul-de-sac and Hall County School System students in the remaining residences. The transportation logistics for serving both school systems are not feasible, if residences include school-age children. The applicants and subsequent home buyers should have official notifications of the school systems' zones of responsibility.

Zoning History

The following zoning actions have taken place in the immediate area during the last ten years:

2016 – A request by Butler Property, LLC to amend a 92.06± acres portion of a Planned Unit Development located at 3035 Old Oakwood Road and 3523 Mountain View Road was approved with conditions for single-family homes, multi-family apartments, office/warehouse and commercial uses.

2011 – A request by ACR Property Services, LLC to amend the zoning conditions for a 105.51± acres tract located within the Mundy Mill development at 0 Mundy Mill Road; 2975 Mountain View Road SW; and 3755 Meeks Drive SW zoned Planned Unit Development (P-U-D) was approved to amend conditions 17 and 18 to reduce the minimum square footage for apartments.

2011 – A request by Butler Property, LLC. to amend the zoning conditions for a 65.425± acres tract located within the Mundy Mill development at 2975 Mountain View Road SW; and 3755 Meeks Drive SW zoned Planned Unit Development (P-U-D) was approved to amend conditions 17 and 18 to reduce the minimum square footage for apartments.

2010 – A request by the City of Gainesville to amend the zoning conditions for a 605.0± acres tract known as the Mundy Mill development zoned Planned Unit Development (P-U-D) was approved to amend conditions 1, 2, 4, 5, 11, 16, 17, 22, 23, 25, 28 and 29 for better clarification.

▪ **Staff Analysis**

(1) Is the proposed use suitable in view of the zoning and development of adjacent and nearby property?

The subject property is located on the northwest side of the intersection of McEver Road and Stephens Road and is located within the Gateway Corridor Overlay Zone. The proposed five single-family lots appear to be suitable with the existing and planned single-family properties located adjacent to the property. However, the property would also be suitable for its current approved use as a small neighborhood retail center considering its proximity to a commercial intersection.

(2) Will the proposed use adversely affect the existing use or usability of adjacent or nearby property?

The proposal should not adversely affect the existing use or usability of the adjacent property which includes property zoned for both residential and commercial purposes. Specifically, the proposed five lots will be sufficiently buffered from the adjacent Copper Springs subdivision located within Gainesville. As well, access will be limited through the adjacent planned residential development in Oakwood.

(3) Is the proposed use compatible with the purpose and intent of the Comprehensive Plan?

The Gainesville 2030 Future Development Map places the subject property within the *Mixed Use General* land use category. This category includes areas containing or planned for a mixture of land uses including office, neighborhood retail, and residential.

According to the Character Area map for the City of Gainesville, the subject property is located within the *Suburban Residential* Character Area. The vision for this area is to preserve older, stable residential subdivisions and encourage newer projects with smaller lot sizes, pedestrian infrastructure, and buildings patterned after traditional local housing, possibly containing a small neighborhood-serving "village center".

As well, the quality community objectives state that housing choices should continue to be diversified to support a range of household incomes, sizes, types, but consist mostly of traditional single-family detached lots. In areas where natural features or sensitive environments are important, cluster housing or conservation subdivision design may be appropriate. Land uses allowed in the Suburban Residential Character Area include low-density residential, medium-density residential, multi-family residential, public / institutional, commercial, and parks / recreation / conservation, mixed-use.

It appears the proposed use with the recommended conditions is compatible with the purpose and intent of the Comprehensive Plan.

(4) Are there substantial reasons why the property cannot or should not be used as currently zoned?

Presently, the subject property is zoned Planned Unit Development (P-U-D) and is zoned for a small neighborhood retail center which now seems less desirable considering the adjacent planned residential development. The property is planned as part of an overall 34.35± acres development within Oakwood to include a mixture of single-family detached homes and attached townhomes. If the request were to be denied, the applicant would be required to redesign the proposal to include the property as a neighborhood scale retail center.

(5) Will the proposed use cause an excessive or burdensome use of public facilities or services, including but not limited to streets, schools, water or sewer utilities, and police or fire protection?

The change of use from commercial to residential will be somewhat burdensome in regards to the maintenance of streets, storm water, solid waste pick up, public safety and schools. Given the location of the property and its planned access, public services other than water and sewer would be best provided privately or by the City of Oakwood.

Both the Fire and Police Departments respond to properties located in the adjacent Copper Springs neighborhood which is more easily accessible directly from McEver Road. The closest

fire stations include Gainesville Fire Station #4 located 4.0± miles off of Memorial Park Drive and Hall County Fire Station #4 located 2.5± miles off of McEver Road. The City and County have an automatic aid agreement which allows the city or county to respond first in the event of a fire or medical emergency. There could be some service delivery issues with the fire departments regarding jurisdiction with only five lots being covered by Gainesville and the rest covered by Hall County.

Should the future residents have school-age children, there would be a moderate increase to the Gainesville City School System including the need to bus the school aged children. This would be more demanding as access to the property is not within an existing bus route and is not feasible according to the Gainesville City School System.

(6) Is the proposed use supported by new or changing conditions not anticipated by the Comprehensive Plan or reflected in the existing zoning on the property or surrounding properties?

The subject property is unique in that it is positioned between three merging jurisdictions of Gainesville, Oakwood and Hall County. As well, the property is located adjacent to both residential and commercially zoned property. The Gainesville Future Development Map places the subject property within the *Mixed Use General* land use category allowing for both non-residential and residential uses which still seems appropriate for the property.

(7) Does the proposed use reflect a reasonable balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property?

Based on the Comprehensive Land Use Plan and the surrounding mixture of land uses, the proposed residential use appears to be allowable but presents some logistical challenges regarding public services due to its limited access. Therefore, the conditional proposal appears to reflect a balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property.

▪ **Staff Recommendation**

The Planning Division staff is recommending **conditional approval** of this zoning amendment request based on the comprehensive plan and the adjacent residential use.

Conditions

1. The proposed single-family homes shall be generally consistent with the standards depicted on the concept plan and architectural elevations provided with this zoning amendment application.
2. The City of Gainesville shall assume no responsibility to provide for the maintenance of streets, solid waste pickup and/or stormwater management, due to the subject property's limited access through the jurisdictions of Hall County and the City of Oakwood. The owner/developer expressly consents to this rezoning condition.
3. In the event that the owner/developer sells any of the lots within the subject property, the owner/developer shall provide written notification within each deed of sale of the preceding condition that the City of Gainesville shall not be responsible for the maintenance of streets, solid waste pickup and/or stormwater management.
4. The subject property shall be limited to five (5) age-restricted single-family lots for seniors 55 years of age and up. The development shall comply with applicable U. S.

Department of Housing and Urban Development (HUD) rules for age-restricted communities. The organization established for the management of the development shall comply with HUD rules for verification of occupancy and shall maintain procedures for routinely determining the occupancy of each unit. Such procedures may be part of a normal leasing or purchasing agreement and must provide for regular updates as required by HUD.

Excerpts from the November 13, 2018 PAB meeting Minutes

Applicant Presentation: Eric Johansen, 3938 Oak Crossing Drive, Suwanee, stated after talking with the staff that he agrees that the five single-family lots would be easier to modify with the conditions in the Copper Springs Subdivision instead of later on down the road needing to annex or rezone the property. He also added that he fully agrees with all of the conditions.

**Re: Amendment to Zoning Application
 Copper Springs – Ordinance No. 99-34
 Hall County Tax Parcel: 08042B000180**

Mayor and City Council Members,

On behalf of Southeastern Land Solutions, LLC (the "Applicant") we are submitting this Amendment to Zoning Application (the "Application") to the City of Gainesville, GA (the "City") for the proposed residential development called Brannon Ridge located on real property commonly identified as Hall County Tax Parcel 08042B000180 consisting of approximately ± 1.34 acres (the "Subject Property"). The Subject Property is currently part of the Copper Springs residential development and it is the understanding of the Applicant that the Subject Property was reserved as the commercial component of that community.

Given that the commercial component of the Copper Springs community was never constructed, the Subject Property went into a receivership situation and was purchased by the current land owner, John Cauthen. Mr. Cauthen is under contract with the Applicant to sell the Subject Property along with several other parcels that he owns along Stephens Road and Waverly Way which will all be located in the master planned Brannon Ridge residential community consisting of approximately ± 34.35 acres.

All of the proposed lots shown on the Subject Property are located within the city limits of the City, and conversely the balance of the lots not located on the Subject Property are all located within the City of Oakwood, GA ("Oakwood"), subject to rezoning and annexation by Oakwood.

Our proposed development, Brannon Ridge, is a proposed Oakwood zoned PRD residential community consisting of (112) single family lots that are a minimum of 40' wide, (75) townhouse units that are 24' wide by 50' deep, approximately ± 2.65 acres of useable Green Space, a 15' Landscape Strip around the rear and side adjacent to residential properties, a 25' Landscape Strip around the entire frontage of the property fronting all three roads, a Swimming Pool and Clubhouse, a common Mail Kiosk, sidewalks throughout the community, and common stormwater management facilities.

The architecture of the single-family homes and the townhouses will have a craftsman style consisting of an earth tone color palate, a mixture of masonry materials, accented by wood trim, fiber cement siding, glass and metal building materials on the front elevations will give each and every home a signature look for Brannon Village. The side elevations will consist of a masonry water table up to 30" tall with the

balance being of fiber cement siding. The rear elevations will consist of fiber cement siding to compliment the rest of the architectural features of the homes.

The Applicant believes that Brannon Ridge will be a unique PRD residential community in the City and in Oakwood that meets the needs of the booming demand for residential housing options as identified in the Oakwood 2017 Comprehensive Plan. Young professionals are returning home along with new students attending the University of North Georgia, and the empty nesters who simply wants to down size and stay near their beloved family members, are all viable residents of this proposed residential community. The swimming pool and the connecting sidewalks in the community will provide opportunities for the residents to exercise. The fully landscaped street frontages and provide a complete look and feel to this development.

We respectfully request the City to grant approval of this Application for the amendment to zoning of the Subject Property in the City and as part of the Copper Springs community. We are happy to meet with the City and its staff members to further discuss the merits of this request and will provide additional information upon request.

Sincerely,

Eric Johansen, RLA
Agent for the Applicant

GAINESVILLE CITY SCHOOL SYSTEM

ONE GAINESVILLE: We will *inspire, nurture, challenge, and prepare* our students.

October 31, 2018

Gainesville Planning & Appeals Board:

The application of Southern Land Solutions, LLC indicates a dual-municipality challenge with residences proposed inside and outside the corporate limits of Gainesville. Upon reviewing the public documents, our comments follow:

- The Gainesville City Board of Education decided to allow the Tax Sharing Agreement with Hall County School System to expire in June, 2018. It is the Board's intent to work with the City of Gainesville and Hall County School System to reduce dually-served housing, such as subdivisions and apartment/townhome developments.
- The proposed project would create a dually-served subdivision with Gainesville City School System students in the cul-de-sac and Hall County School System students in the remaining residences. The transportation logistics for serving both school systems are not feasible, if residences include school-age children. The applicants and subsequent home buyers should have official notifications of the school systems' zones of responsibility.
- The proposed project includes 112 single-family homes and a 75-unit townhome development. Of the residences, only 5 single family homes are in the City of Gainesville, resulting in 2.7%.

Thank you.

1. **Premises.** Landlord, in consideration of the rents to be paid and the covenants and agreements to be performed and observed by Tenant, hereby leases to Tenant, and Tenant leases and takes from Landlord, the premises depicted on Exhibit "A," attached hereto and made a part hereof (hereinafter referred to as "the Premises").

2. **Term and Rent.** Landlord demises the Premises for a term of four (4) years (hereinafter referred to as "the Initial Term"), commencing as of the ____ day of _____, 2018 (hereinafter referred to as "the Commencement Date"), and terminating on the ____ day of _____, 2022, unless terminated sooner as provided herein. This Lease may be renewed for up to four (4) additional terms of ten (10) years each upon the following terms and conditions, provided Tenant notifies Landlord in writing of its election to renew this Lease no less than 60 days prior to the expiration of the Initial Term or any subsequent renewal term. Upon renewal, all provisions and covenants of this Lease will be and remain in full force and effect during the renewal term.

Beginning on the Commencement Date, the monthly rental during the Initial Term will be \$10,000, paid in advance on the first day of each month for that month's rental during the Initial Term and any renewal term of this Lease.

A late fee of five percent (5%) of the amount due will be charged if a rental payment has not been received by Landlord by the fifth (5th) day of the month.

If Tenant remains in possession of the Premises after the termination of the Initial Term or any renewal term of this Lease for any reason, without any distinct written agreement by Landlord and Tenant, Tenant will be and become a tenant at sufferance, and there will be no renewal or extension of this Lease by operation of law.

3. **Use.** Tenant may use and occupy the Premises for Tenant's provision of education to students in the area of healthcare. The Premises may not be used for any other purpose. In no event will Tenant use the Premises for any illegal purpose, in violation of any law, or in any manner which constitutes a public or private nuisance. Tenant will not do, bring, or keep anything on or about the Premises that would increase the rates charged Landlord for, or cause the cancellation of, Landlord's insurance covering the Premises.

4. **Abandonment.** Tenant agrees to occupy the Premises during the term of this Lease and agrees not to abandon the Premises during the term of the Lease.

5. **Repairs by Tenant.** Within ten (10) days of the execution of this Lease, Landlord shall pay to Tenant the sum of \$74,000.00, in satisfaction of any and all responsibilities of Landlord as to repairs to the Premises. **Tenant accepts the Premises in their present condition and as suited for the uses intended by Tenant. Tenant must, throughout the term of this Lease, at its expense, maintain the Premises in good order and repair. Tenant agrees that Landlord shall have no obligations whatsoever regarding maintenance and/or repair of the Premises, including but not limited to the roof, HVAC, and/or any condition relating to any structure on the Premises.** Tenant agrees to return the Premises to Landlord at the expiration, or prior termination of this Lease, in as good condition and repair as when first received, natural wear and tear, damage by storm, fire, lightning, earthquake or other casualty alone excepted. Tenant agrees to maintain grounds, including mowing of grass, care of shrubs and general landscaping, including cleaning of parking areas as necessary.

6. **Repairs by Landlord.** **Landlord shall not have responsibility for any repairs to the Premises whatsoever.**

7. **Alterations.** Tenant will not make any alterations, or improvements to the Premises without Landlord's prior written consent. Tenant will promptly remove any alterations, additions or improvements constructed in violation of this section of the Lease upon Landlord's written request. All approved alterations, additions and improvements will be accomplished in a good and workmanlike manner, in conformity with all applicable laws and regulations, and by a contractor approved by Landlord, free of any liens or encumbrances. Landlord may require Tenant to remove any alterations, additions or improvements (whether or not made with Landlord's consent) at the termination of this Lease and to restore the Premises to its prior condition, all at Tenant's expense. All alterations, additions and improvements which Landlord has not required Tenant to remove will become Landlord's property and will be surrendered to Landlord upon the termination of this Lease, except that Tenant may remove any of Tenant's machinery or equipment which can be removed without material damage to the Premises. Tenant will repair, at Tenant's expense, any damage to the Premises caused by the removal of such machinery or equipment. In the event that any lien is filed against the Premises as a result of any work or act of Tenant, Tenant, at its expense, shall

discharge or bond off the same within thirty (30) days from the filing thereof. Tenant may contest any such lien if Tenant reasonably believes the lien is invalid for any reason and shall hold harmless, the Landlord and the Premises from any cost or indebtedness associated with the lien. Prior to the commencement of any work by Tenant, Tenant shall obtain public liability and workers' compensation insurance in the amounts set out in this Lease to cover every contractor or subcontractor to be employed by Tenant, or require its contractor to provide such, and shall deliver duplicate originals of all certificates of such insurance to Landlord. If, in an emergency, it shall become necessary for, in its sole discretion, Landlord to make repairs required to be made by Tenant, Landlord may reenter the Premises and proceed to have such repairs made and pay the costs thereof. Tenant shall promptly reimburse Landlord for the costs of such repairs.

8. **Removal of Fixtures.** Tenant may (if not in default hereunder) prior to the expiration of the Lease, or any extension or renewal thereof, remove all trade fixtures and equipment which it has placed in the Premises, provided Tenant repairs all damage to the Premise caused by such removal.

9. **Ordinances and Statutes.** Tenant will comply with all statutes, ordinances and requirements of all municipal, state and federal authorities now in force, or which may hereafter be in force, pertaining to the Premises, occasioned by or affecting the use thereof by Tenant. Tenant shall, at its own expense, comply with all laws inclusive of the Americans With Disabilities Act (ADA), orders, ordinances and other requirements respecting all matters of occupancy, condition or maintenance of the Premises for the use by Tenant as set out in this Agreement, whether such orders or directions shall be directed to Tenant or Landlord, and Tenant shall hold Landlord harmless from any and all costs or expenses on account thereof. Tenant shall procure and maintain all licenses and permits legally necessary for Tenant's operations on the Premises and allow Landlord to inspect them on request. Tenant agrees that it will comply with all statutes, federal and state, and all regulations concerning Hazardous Material (defined hereinafter) on, under or at the Premises. Tenant further agrees that it will not cause or allow any asbestos to be incorporated into any improvements or alterations which it makes or causes to be made to the Premises. Tenant hereby holds Landlord harmless from and indemnifies Landlord against any and all losses, liabilities, damages, injuries, costs, expenses, fines, penalties, and claims of any and every kind whatsoever (including, without limitation, court costs and attorneys' fees) which at any time or from time to time may be paid, incurred or suffered by, or asserted against Landlord for, with respect to, or as a direct or indirect result of (i) a breach by Tenant of the foregoing covenants, or (ii) to the extent caused or allowed by Tenant or any agent, contractor, employee, invitee or licensee of Tenant, the presence on or under, or the escape, seepage, leakage, spillage, discharge, emission or release from, onto or into the Premises, the atmosphere, or any watercourse, body of water or groundwater, of any Hazardous Material (including, without limitation, any losses, liabilities, damages, injuries, costs, expenses or claims asserted or arising under the Comprehensive Environmental Response, Compensation and Liability Act, any so-called "Superfund" or "Superlien" law, or any other Federal, state, local or other statute, law, ordinance, code, rule, regulation, order or decree regulating, relating to or imposing liability or standards of conduct concerning any Hazardous Material, as the same may be amended or modified); and the provisions of and undertakings and indemnification set out in this paragraph shall survive the termination of this Lease, and shall continue to be the liability, obligation and indemnification of Tenant, binding upon Tenant

forever, subject to the applicable statute of limitations. The provisions of the preceding sentence shall govern and control over any inconsistent provision of this Lease. For purposes of this Lease, "Hazardous Material" means and includes any hazardous substance or any pollutant or contaminant defined as such in (or for purposes of) the Comprehensive Environmental Response, Compensation, and Liability Act, any so-called "Superfund" or "Superlien" law, the Toxic Substances Control Act, or any other Federal, state or local statute, law, ordinance, code, rule, regulation, order or decree regulating, relating to or imposing liability or standards of conduct concerning, any hazardous, toxic or dangerous waste, substance or material, as now or at any time hereafter in effect, or any other hazardous, toxic or dangerous, waste, substance or material.

10. Assignment and Subletting.

A. Tenant shall not without the City of Gainesville's (hereinafter referred to as "the City") and the Landlord's prior written consent, which the City and Landlord may withhold in their sole discretion, (i) assign or otherwise transfer, or mortgage or otherwise encumber, this Lease or any of its rights hereunder, (ii) sublet the Premises or any part thereof, or permit the use of the Premises or any part thereof by any persons other than Tenant or its agents, or (iii) permit the assignment or other transfer of this Lease or any of Tenant's rights hereunder by operation of law.

B. In the event Tenant desires to assign or transfer this Lease, or sublet (or permit occupancy or use of) the Premises, or any part thereof, Tenant shall give the City and the Landlord sixty (60) days prior written notice of Tenant's intention to so assign or transfer or sublet all or any part of the Premises. For sixty (60) days following receipt of said notice, the City and the Landlord shall have the right, exercisable by sending written notice to Tenant, to (i) refuse to permit such assignment, sublet or transfer, (ii) terminate this Lease, or (iii) allow the Premises to be sublet from Tenant for the balance of the term of this Lease, all of the Premises in the event Tenant notified the City and the Landlord of its intention to assign or transfer this Lease, or only so much of the Premises as Tenant desires to sublet in the event Tenant notified the City and the Landlord of its desire to sublet the Premises or a portion thereof. Tenant may assign or transfer this Lease, or sublet such space if Tenant has obtained the prior written consent of the City and the Landlord. The consent by the City and the Landlord to any assignment, transfer or subletting to any party shall not be construed as a waiver or release of Tenant under the terms of any covenant or obligation under this Lease, nor shall the collection or acceptance of rent from any such assignee, transferee, subtenant or occupant constitute a waiver or release of Tenant of any covenant or obligation contained in this Lease, nor shall any such assignment, transfer or subletting be construed to relieve Tenant from giving the City and the Landlord said sixty (60) days notice or from obtaining the consent in writing of the City and the Landlord to any further assignment, transfer or subletting.

C. In the event the City and the Landlord do not exercise their right to have all or a portion of the Premises, as the case may be, subleased or assigned to it but give Tenant their written consent to assign, transfer or sublet all or a portion of the Premises to a third party, any monthly rent or other payment accruing to Tenant as the result of any such assignment,

transfer, or sublease, including any lump sum or periodic payment in any manner relating to such assignment, transfer or sublease shall be paid by Tenant to Landlord monthly. Landlord may require a certificate from Tenant specifying the full amount of any such payment of whatsoever nature.

D. Any costs and expenses, including attorneys' fees incurred by Landlord in connection with any proposed or purported assignment, transfer or sublease, shall be borne by Tenant and shall be payable to Landlord.

11. **Utilities.** All applications and connections for necessary utility services on the demised Premises will be made in the name of Tenant only, and Tenant will be solely liable for utility charges as they become due, including, but not limited to, those for sewer, water, gas, electricity, and telephone services. Landlord will have no liability for any interruption or failure in supply of any utilities to the Premises.

12. **Taxes.** The Premises, as property owned by the Authority, will be exempt from ad valorem tax. During the term of this lease, Tenant will be liable for all City, County, and State taxes assessed on Tenant's personal property located on the Premises and will pay the same by the due date.

13. **Quiet Enjoyment.** Landlord covenants that so long as Tenant performs all of its obligations hereunder, Tenant will peacefully and quietly have, hold, and enjoy the Premises for the term hereof.

14. **Entry and Inspection.** Tenant must permit Landlord or Landlord's agents to enter upon the Premises at any time during business hours and upon written notice, hand delivered to Tenant at least one (1) day prior to Landlord's entrance onto the Premises, for the purpose of inspecting the same, and will permit Landlord at any time within sixty (60) days prior to the expiration of this lease, to place upon the Premises any usual "To Let" or "For Lease" signs, and permit persons desiring to lease the same to inspect the Premises thereafter.

15. **Destruction of Premises.**

A. In the event the Premises shall be partially or totally destroyed by fire or other casualty insured under the provisions of Paragraph 17 below, so as to become partially or totally untenable, then the damage to the Premises shall be promptly repaired, unless Landlord shall elect not to rebuild or repair as hereinafter set forth. In no event shall Landlord be required to repair or replace Tenant's improvements, fixtures, furnishings, or equipment. If more than twenty-five percent (25%) of the Premises shall be damaged or destroyed by fire or other casualty, then Landlord may elect that the Premises be repaired or rebuilt or, at its sole discretion, terminate this Lease by giving written notice to Tenant of its election to so terminate, such notice to be given within ninety (90) days after the occurrence of such damage or destruction. If Landlord elects for Tenant to repair or rebuild the Premises as herein provided, Tenant shall immediately repair or replace all structures, improvements, trade fixtures, furnishings and equipment in a manner and to at least a condition equal to that immediately prior to its damage or destruction.

B. If all or any portion of the Premises is damaged by fire or other casualty and this Lease is not terminated in accordance with the provisions in subparagraph (A) above, then all of Tenant's insurance proceeds however recovered shall be made available for payment of the cost of repair, replacing and rebuilding. Tenant shall use the proceeds from Tenant's insurance as set forth herein to repair or rebuild the Premises to its condition as on the effective date of this Lease, and Tenant shall, using the proceeds from Tenant's insurance provided for in Paragraph 17, repair, restore, replace or rebuild that portion of the Premises together with any additional improvements installed by Tenant, such that the Premises shall be restored to its condition as of immediately prior to the occurrence of such casualty. All of the aforesaid Tenant's insurance proceeds shall be deposited in escrow and shall be disbursed as work on repair, replacement or restoration progresses upon the agreement of Landlord that the balance in the escrow fund is sufficient to pay the estimated costs of completing the repair and restoration.

16. **Waiver of Subrogation.** Notwithstanding any provision of this Lease to the contrary, Tenant hereby releases and waives all rights of subrogation against the Landlord, its officers, directors, employees and agents from any and all loss, damages or liability covered under any policy of insurance required to be maintained by this Lease, including deductibles or retentions, notwithstanding that such loss, damages or liability may have arisen from the negligence, tortuous act or omission of the Landlord, or anyone for whom Landlord may be responsible, unless Tenant's insurers require rights of subrogation as a condition of its policies of insurance.

17. **Insurance.**

A. **General Liability Coverage.** Tenant agrees to carry, at its own expense, throughout any term of this Lease, Commercial General Liability insurance in the broadest form obtainable (including contractual liability coverage) covering the Premises and Tenant's use of the Premises with a minimum coverage of Two Million Dollars (\$2,000,000) per occurrence and Three Million Dollars (\$3,000,000) aggregate for Bodily Injury and Property Damage, including Loss of Use. Tenant may satisfy its obligation to maintain Commercial General Liability insurance, as required pursuant to this Paragraph 17, by obtaining a combination of primary liability and umbrella/excess liability policies that total a minimum of \$3,000,000 per occurrence limit, provided that Tenant's primary liability policy shall be in the minimum amount of Two Million Dollars (\$2,000,000) per occurrence. Tenant's insurance policy(ies) shall be written with insurers licensed to do business in the state of Georgia, in a form satisfactory to Landlord and shall carry an A.M. Best rating of at least A. Tenant's policies shall name Landlord as an additional insured and shall be endorsed to provide Landlord with no less than thirty (30) days prior written notice of cancellation or non-renewal. Tenant's policies shall include a waiver of subrogation against Landlord and shall be endorsed to reflect that in the event that coverage benefiting Landlord exists under both Landlord's and Tenant's policies, coverage under the Tenant's policies shall be primary.

B. **Property Coverage.** Tenant shall bear the entire risk of loss for the Premises and all of its property, furniture, fixtures, carpets, machinery, improvements and betterments, equipment, inventory, and goods placed in the Premises. Tenant shall carry, at its sole cost and

expense, Special Perils "all-risk" property coverage of the broadest form available covering the above property on a full replacement cost basis. Coverage shall include improvements to the Premises while under construction or installation by Tenant. Said policy shall include a waiver of subrogation against Landlord as to loss or damage covered by such policy.

C. **Workers' Compensation & Employers Liability Coverage.** Tenant shall carry at all times such Workers' Compensation insurance as to comply with the laws and regulations of the state of Georgia and shall provide Landlord with a Certificate evidencing coverage currently in force. Tenant shall also carry Employers Liability insurance in the amount of \$1,000,000 each accident, \$1,000,000 disease-each employee and \$1,000,000 disease-aggregate. Insurance policy shall include a waiver of subrogation against Landlord.

D. **Motor Vehicle Liability Coverage.** To the extent vehicles are used to conduct the Tenant's business, Tenant shall carry at all times Business Auto Liability insurance covering all owned, non-owned and hired vehicles in a minimum amount of One Million Dollars (\$1,000,000) per occurrence for bodily injury and property damage. Said policy shall waive subrogation against Landlord and shall name Landlord as additional insured.

E. **Liquor Liability Coverage.** At all times during the term of this Lease, when liquor, beer or wine are served or offered for sale within the Premises, Tenant shall maintain liquor liability insurance for the benefit of Landlord and Tenant against claims for bodily injury, death or property damage resulting from or arising out of the sale or distribution of liquor, beer or wine from the Premises of not less than Two Million Dollars (\$2,000,000) in respect of such personal injury, death or property damage. Landlord shall be named as additional insured under such policy. Such policy shall provide that it is the primary policy in the event of a loss and shall waive subrogation against Landlord.

F. **All Risk Property Insurance.** Throughout the Lease Term, at Tenant's sole cost and expense, Tenant shall carry and maintain a policy of "all risk" (broad form) property insurance naming the City and Landlord as an additional named insured, as Landlord's interest may appear, covering the Premises and all improvements against loss or damage by fire, collapse, earthquake, and other risks now or hereafter customarily embraced by an "all risk" (broad form) policy in an amount not less than one hundred percent (100%) of the full insurable value and replacement cost of the Property and all improvements, which value is currently Nine Million Seven Hundred Thousand Dollars (\$9,700,000). Landlord and Tenant agree that they shall, in a timely manner, annually review an estimate of "replacement cost" of the Premises, including improvements on the Premises. Landlord and Tenant agree to act reasonably and to cooperate in good faith in the determination of the full insurable value and replacement cost of the Premises for the purposes of this paragraph. The policy shall contain a clause expressly waiving the insurer's right of subrogation against Landlord, its agents, servants and employees. For the period of construction of any project improvements, the insurance on such project improvements required by this paragraph 17(F) shall be in "All-Risk" Builder's Risk Completed Value Form or other comparable coverage during construction of such project improvements. All policies of insurance required under this paragraph shall

contain a clause expressly waiving the insurer's right of subrogation against Landlord and its agents, servants and employees.

G. **Basic Insurance Requirements.** Tenant shall provide Landlord with Certificates of Insurance (ACORD 25) prior to the date of possession by Tenant and within thirty (30) days of the anniversary of said insurances, as required in subparagraphs (A) through (F) of this paragraph evidencing the above-required coverage. Such certificate shall include copies of endorsements that provide Additional Insured, Waiver of Subrogation and Notice of Cancellation benefits to Landlord. Absence of the cancellation language on the Tenant's ACORD certificate shall in no way abrogate Tenant's obligations under this Lease. Tenant's policies shall name Tenant as the Named Insured and the City and Landlord as additional insured as their interests may appear and shall be endorsed to provide the City and Landlord with no less than thirty (30) days prior written notice of cancellation or non-renewal. Tenant's policies shall also be endorsed to reflect that in the event coverage benefiting the City and Landlord exists under both Landlord's and Tenant's policies, coverage under Tenant's policy shall be primary. All insurance policies shall specifically include coverage of Tenant's indemnification obligations to Landlord under this Lease. Tenant shall require any Contractor, Subcontractor, Subtenants, Licensees and Users of Tenant performing work on the Premises to maintain sufficient coverage of insurance as required of Tenant and to provide the same evidence of such coverage to Tenant before the Work begins. Failure on the part of Tenant to provide such evidence of insurance may cause, but does not obligate, Landlord to affect such coverage and in such event, Tenant agrees to pay the premium for such coverage promptly upon Landlord's demand.

Landlord may, but shall have no obligation to, maintain during the term of this Lease, any insurance coverage on the Premises.

Tenant shall not permit to be done any act which will invalidate or be in conflict with insurance policies of Landlord covering the Premises or any other insurance referred to in this Lease. Tenant shall promptly comply with all rules and regulations relating to such policies. If the acts of Tenant or its employees or agents shall increase the rate of insurance referred to in this Lease, such increases shall be immediately paid by Tenant to Landlord.

18. **Events of Default.** The happening of any one or more of the following events (hereinafter any one of which may be referred to as an "Event of Default") during the term of this Lease, or any renewal or extension thereof, will constitute a breach of this Lease on the part of the Tenant: (A) Tenant fails to pay the rental as provided for herein; and such failure continues for ten (10) days after written notice to Tenant, provided, however, that Landlord will not be required to provide such notice and right to cure more than twice in any twelve (12) month period; (B) Tenant abandons or vacates the Premises; (C) Tenant fails to comply with or abide by and perform any other obligation imposed upon Tenant under this Lease and such failure continues for thirty (30) days after written notice to Tenant; (D) Tenant is adjudicated bankrupt; (E) a permanent receiver is appointed for Tenant's property and such receiver is not removed within sixty (60) days after written notice from Landlord to Tenant to obtain such removal; (F) Tenant, either voluntarily or involuntarily, takes advantage of any debtor relief proceedings under present or future law, whereby the rent or any part thereof is, or is proposed to be reduced or payment thereof deferred; (G) Tenant makes an

assignment for benefit of creditors; or (H) Tenant's effects are levied upon or attached under process against Tenant, which is not satisfied or dissolved within thirty (30) days.

19. **Remedies Upon Default.** Upon the occurrence of an Event of Default, Landlord, in addition to any and all other rights or remedies it may have at law or in equity, will have the option of pursuing any one or more of the following remedies:

A. Landlord may terminate this Lease by giving notice of termination, in which event this Lease will expire and terminate on the date specified in such notice of termination, with the same force and effect as though the date so specified were the date herein originally fixed as the termination date of the term of this Lease, and all rights of Tenant under this Lease and in and to the Premises will expire and terminate, and Tenant will remain liable for all obligations under this Lease arising up to the date of such termination and Tenant must surrender the Premises to Landlord on the date specified in such notice;

B. Landlord may terminate this Lease as provided in paragraph 19(A) hereof and recover from Tenant all actual damages Landlord may incur by reason of Tenant's default, including without limitation, a sum which, at the date of such termination, represents the then value of the excess, if any, of (i) the monthly rental and additional rent for the period commencing with the day following the date of such termination and ending with the date hereinbefore set for the expiration of the full term hereby granted, over (ii) the aggregate reasonable rental value of the Premises (less reasonable brokerage commissions, attorneys' fees and other costs relating to the reletting of the Premises) for the same period, all of which excess sum will be deemed immediately due and payable;

C. Landlord may, without terminating this Lease, declare immediately due and payable all monthly rental and additional rent due and coming due under this Lease for the entire remaining term hereof, together with all other amounts previously due, at once; provided, however, that such payment will not be deemed a penalty or liquidated damages but will merely constitute payment in advance of rent for the remainder of said term; upon making such payment, Tenant will be entitled to receive from Landlord all rents received by Landlord from other assignees, tenants and subtenants on account of the premises during the term of this Lease, provided that the moneys to which Tenant becomes entitled will in no event exceed the entire amount actually paid by Tenant to Landlord pursuant to this clause (C) less all costs, expenses and attorneys' fees of Landlord incurred in connection with the reletting of the Premises; or

D. Landlord may, from time to time without terminating this Lease, and without releasing Tenant in whole or in part from Tenant's obligation to pay monthly rental and additional rent and perform all of the covenants, conditions and agreements to be performed by Tenant as provided in this Lease, make such alterations and repairs as may be necessary in order to relet the Premises, and, after making such alterations and repairs, Landlord may, but will not be obligated to, relet the Premises or any part thereof for such term or terms (which may be for a term extending beyond the term of this Lease) at such rental or rentals and upon such other terms and conditions as Landlord in its sole discretion may deem advisable or acceptable; upon each reletting, all rentals received by Landlord from such reletting will be applied first, to the payment of any indebtedness

other than rent due hereunder from Tenant to Landlord, second, to the payment of all costs and expenses of such reletting, including brokerage fees and reasonable attorneys' fees, and of costs of such alterations and repairs, third, to the payment of the monthly rental and additional rent due and unpaid hereunder, and the residue, if any, will be held by Landlord and applied against payments of future monthly rental and additional rent as the same may become due and payable hereunder; in no event will Tenant be entitled to any excess rental received by Landlord over and above charges that Tenant is obligated to pay hereunder, including monthly rental and additional rent; if such rentals received from such reletting during any month are less than those to be paid during the month by Tenant hereunder, including monthly rental and additional rent, Tenant must pay any such deficiency to Landlord, which deficiency will be calculated and paid monthly; Tenant must also pay Landlord as soon as ascertained and upon demand all costs and expenses incurred by Landlord in connection with such reletting and in making any alteration and repairs which are not covered by the rentals received from such reletting; notwithstanding any such reletting without termination, Landlord may at any time thereafter elect to terminate this Lease for such previous breach.

E. In the event Landlord exercises one of the remedies stated herein, Landlord may, but will not be required to, remove all or any portion of Tenant's personal property from the premises, after ten (10) days written notice to Tenant of Landlord's intent to do so. If Tenant has not removed such property within such ten (10) day period, Landlord may dispose of such property in any manner available, and Tenant releases Landlord from any claim for damages related thereto.

20. **Effect of Termination of Lease.** No termination of this Lease prior to the normal ending thereof, by lapse of time or otherwise, will affect Landlord's right to collect rent for the period prior to the termination thereof.

21. **Attorney's Fees.** In case suit should be brought for recovery of the Premises, or for any sum due hereunder, or because of any act which may arise out of the possession of the Premises, by either party, the prevailing party will be entitled to all costs incurred in connection with such action, including reasonable attorney's fees.

22. **No Estate in Land.** This Lease will create the relationship of Landlord and Tenant between the parties hereto. No estate in land will pass out of Landlord. Tenant has only a usufruct not subject to levy and sale, and not assignable by Tenant except as herein provided.

23. **Rights Cumulative.** All rights, powers and privileges conferred hereunder upon the parties hereto will be cumulative and not restrictive of those given by law.

24. **Waiver.** No failure of Landlord or Tenant to enforce any term hereof will be deemed to be a waiver.

25. **Notices.** Whenever under the terms of this Lease a written notice is required, or whenever a written notice or communication is sent, the same must be accomplished by registered or certified mail, return receipt requested, postage prepaid, or Federal Express, Airborne or other receipted

courier, or by hand deliver, addressed as follows:

To Landlord:	Gainesville Redevelopment Authority Attn: Secretary 405 Washington Street, N.E. Gainesville, GA 30501
To Tenant:	Brenau University, Inc. Attn: CEO 500 Washington Street, SE Gainesville, GA 30501

26. **Heirs, Assigns, Successors.** This lease is binding upon and inures to the benefit of the heirs, assigns and successors in interest to the parties.

27. **Time is of the Essence.** Time is of the essence as to all provisions of this Lease.

28. **Subordination; Waiver of Landlord's Liens.** This Lease and Tenant's tenancy hereunder shall be subject and subordinate at all times to the lien of any type now or hereafter placed upon the interest of Landlord and the Premises. Tenant also agrees that any lienholder may elect to have this Lease a subsequent lien to its indebtedness, and in the event of such election, and upon notification by such lienholder to Tenant to that effect, this Lease shall be deemed subsequent in lien to the said lienholder, whether this Lease is dated prior to or subsequent to the date of said lien. Tenant agrees to execute and deliver such instruments as may be desired by Landlord or lienholder subordinating this Lease to the lien of any present or future lien, or as may be otherwise required to carry out the intent of this Paragraph. Tenant hereby appoints Landlord its attorney-in-fact, irrevocably, to execute and deliver any such instrument of Tenant.

29. **Governing Law.** This Lease will be governed by the laws of the State of Georgia as applied to contracts entered into and to be performed entirely within the State of Georgia.

30. **Forum Selection.** Each of the parties hereby irrevocably submits to the jurisdiction of the Superior Court of Hall County, Georgia in any action or proceeding arising out of or related to this Lease, and each party hereby irrevocably agrees that all claims in respect of such action or proceeding will be heard and determined in such Superior Court. Each of the parties irrevocably waives any objection, including without limitation, any objection to venue based on the ground of *forum non conveniens*, which it may now or hereafter have to the bringing of any such action or proceeding in such jurisdiction.

31. **Severability.** If any term or other provision of this Lease is invalid, illegal or incapable of being enforced by any rule of law or public policy, all the remaining terms and provisions of this Lease will nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in any manner or adverse to any party hereto. Upon determination that any term is invalid, illegal or incapable of being enforced, the

parties hereto will negotiate in good faith to modify this Lease so as to effect the original intent of the parties as closely as possible in an acceptable manner to the end of the transactions contemplated by this Lease or consummated to the extent possible.

32. **Entire Agreement.** The foregoing constitutes the entire agreement between the parties with respect to the subject matter hereof and may be modified only by a writing signed by both parties. The parties agree that this Lease creates a usufruct only and not an estate for years.

33. **Brokerage.** Neither Landlord nor Tenant has dealt with any broker or agent in connection with the negotiation or execution of this Lease.

34. **Tenant Sign.** Tenant may install and maintain a sign affixed to the building in a location, size and style subject to the prior written approval of the City and Landlord. Notwithstanding Landlord's approval and/or the terms of this Lease, Tenant's sign shall conform to all applicable legal requirements and limitations. Tenant shall pay for all costs in connection with such sign(s) and shall be responsible for the cost of proper installation and removal thereof and any damage caused to the Premises thereby. In the event Landlord deems it necessary to remove such sign(s), then Landlord shall have the right to do so, provided, however, Landlord shall replace said sign as soon as practicable at Landlord's sole cost. No additional signs, which can be seen from the exterior of the Premises, shall be installed or displayed in, on or about the Premises without the prior written consent of Landlord.

35. **Parking.** During the term of this Lease Tenant is granted a nonexclusive license to issue a parking permit to its students, customers and invitees to the use of the sidewalks, parking deck and the entrance and exit ways designated by the City or Landlord for access, ingress and egress to and from the Premises from a public street or highway. Tenant acknowledges that the adjoining parking deck shall remain a public parking facility. Tenant may not charge a parking fee. Tenant will assist as far as practical in developing financial sources for the construction of two additional floors of the parking deck and during the construction of such additional floors, Landlord and Tenant will endeavor to identify areas for off-site parking for Tenant's employees and students. Notwithstanding anything contained in this Lease to the contrary, the City and Landlord shall have the right, at any time and from time to time, without notice to or consent of Tenant, to change the size, location, elevation and nature of any other public area, or any part thereof, including, without limitation, the right to locate and/or erect thereon, structures and other improvements of any type. Landlord shall have the right, at any time and from time to time, to establish, modify, amend and enforce rules and regulations with respect to the aforementioned public areas and the use thereof. Tenant agrees to abide by and conform to such rules and regulations on notice thereof and to cause its invitees and its employees and agents to do the same.

Landlord is responsible for the maintenance of the public parking deck adjacent to the Premises. Landlord's responsibility for maintenance includes: (A) Maintaining, repairing or replacing equipment in the parking deck such as lights, fire hydrants, and elevators; (B) Maintaining the parking deck in a reasonably clean condition, including, except as hereinafter provided to the

contrary, emptying trash cans and removing graffiti; and (C) Maintaining the structural integrity of the parking deck.

Tenant is responsible for cleaning any debris in the parking deck or elevators following an event on the Premises.

36. **Hold Harmless.** To the fullest extent permitted by law, Tenant hereby indemnifies and agrees to save harmless the City and Landlord and their respective officers, directors, employees, and agents, from and against all claims, losses, liabilities, damages, penalties, fines and expenses (including but not limited to reasonable attorneys' fees) that arise from or in connection with (i) the possession, use, occupation, management, repairs, maintenance or control of the Premises, or any portion thereof, inclusive of improvements; (ii) any act or omission of Tenant, its employees, agents, contractors, licensees, or invitees; or (iii) any violation, breach, or default of this Lease by Tenant. Tenant shall, at its own cost and expense, defend any and all actions which may be brought against the City and Landlord and their respective officers, directors, employees and agents with respect to the foregoing. Tenant shall pay, satisfy and discharge any and all judgments, orders and decrees which may be recovered against the City and Landlord and their respective officers, directors, employees and agents in connection with the foregoing.

37. **Termination by Tenant.** Notwithstanding any other provision in this Lease Agreement, Tenant may terminate this Lease Agreement upon ninety (90) days prior written notice in the unlikely event its programs and financial situation do not merit, in Tenant's sole discretion, the continuation of the Lease Agreement. In such event, Tenant shall deliver to the Landlord all of the property described in Exhibit "B" to this Lease, including any improvements or replacements for such property.

38. **Counterparts.** This Lease may be executed in one or more counterparts, any one or all of which shall constitute but one agreement.

39. **Security.** Tenant shall provide all security for the Premises, including the adjacent parking deck and its elevators. During events on the Premises, Tenant shall also secure any outside areas that are occupied by event attendees.

40. **Marquee Sign.** Tenant agrees that at the request of the City or Landlord, Tenant shall advertise information about downtown or community events on the marquee sign, currently located at the corner of Jesse Jewell and Main Street.

41. **Landlord Access.** Landlord reserves the right for itself and for the City to use and access the fiber optic lines that remain on the Premises. Landlord also reserves the right to use the exterior of the Premises to mount cameras or lights needed for the security of public spaces surrounding the Premises. Tenant shall grant Landlord access to Landlord's equipment as needed for their operation. Landlord will inform Tenant of any installation of cameras or lighting.

42. **Voting Precinct.** Tenant agrees to allow the City to continue using the Premises as a voting precinct throughout the term of this Lease. Landlord or its designee will provide Tenant with election dates as soon as practical, and Tenant agrees that it will reserve adequate space for elections accordingly. Space will be reserved for a half-day prior to the election day, the election day, and a half-day after the election day. Tenant will accommodate the City's needs for accessibility to the Premises on election day. Tenant agrees as a community service to provide the space needed for elections at no cost to the City.

43. **Convention Space.** Tenant agrees to renovate the area identified as "Convention Area" on Exhibit "C," attached hereto and incorporated herein, in accordance with the plans and specifications attached hereto and incorporated herein as Exhibit "D." Said renovations shall hereinafter be referred to as "the Convention Space." The Convention Space shall be completed on or before December 31, 2019. Within thirty (30) days of the Commencement Date, Landlord shall pay to Tenant the sum of \$250,000.00. After completion of the Convention Space, Tenant agrees to make the Convention Space available, free of charge to Landlord and/or Landlord's designee(s) no less than 12 days per 12 month period, upon written request of Landlord and/or Landlord's designee(s) at least 30 days in advance of Landlord's written notice to Tenant of its desire to utilize the Convention Space. Landlord will take responsibility for all costs associated with Landlord's use of the Convention Space. Landlord agrees to return the Convention Space in a clean condition, following Landlord's use of the Convention Space.

44. **Option to Purchase.** In conformance with the Charter and ordinances of the City, and if allowed by State laws and regulations, Tenant shall have the exclusive option to purchase the Premises at the end of the Initial Term of this Lease. If Tenant does not exercise its option and renews this Lease for an additional ten (10) years, Tenant shall have, subject to the limitations set forth above, the exclusive option to purchase the Premises at the conclusion of the renewal term, as well as at the end of any subsequent renewal term, on the same terms and conditions as stated in this paragraph. Tenant's option to purchase the Premises will expire if not exercised within 60 days of the end of the Initial Term or any subsequent renewal term. The purchase price shall be determined by averaging the appraisals of three (3) licensed real estate appraisers, one (1) of whom shall be selected by the City, one (1) of whom shall be selected by Tenant, and one (1) of whom shall be selected by the two (2) appraisers selected by the City and Tenant. The terms of the sale shall be cash payable at closing to be held within six (6) months of the end of the Initial Term or any subsequent renewal term of this Lease. If the option is exercised, Landlord will convey fee simple title to Tenant by limited warranty deed, upon payment of the purchase price free and clear of any liens and encumbrances. Tenant shall bear all closing costs. Landlord shall pay the proceeds of any such sale to the City.
