The following zoning actions have taken place in the immediate area during the last ten years:

2020 – A request by Smith, Gambrell & Russell, LLP to annex a 4.01± acres tract with a zoning of Light Industrial (L-I) located at 2500 West Park Drive was conditionally approved for an existing industrial warehouse use.

2018 – A request by Hydro Extruder, LLC to annex a 10.98± acres tract and a 11.29± acres tract with a zoning of Light Industrial (L-I) located at 2829 Mountain View Road and 2949 Old Oakwood Road was conditionally approved to expand the existing industrial use.

2016 – A request by Butler Property, LLC to amend a 92.06± acres tract located within the Mundy Mill development at 3035 Old Oakwood Road SW and 3523 Mountain View Road SW zoned Planned Unit Development (P-U-D) was approved to change the location of some of the single-family homes, multi-family apartments, commercial and industrial uses.

2011 – A request by Butler Property, LLC to amend the zoning conditions for a 65.425± acres tract located within the Mundy Mill development at 2975 Mountain View Road SW; and 3755 Meeks Drive SW zoned Planned Unit Development (P-U-D) was approved to amend conditions 17 and 18 to reduce the minimum square footage for apartments.

2011 – A request by ACR Property Services, LLC to amend the zoning conditions for a 105.51± acres tract located within the Mundy Mill development at 0 Mundy Mill Road; 2975 Mountain View Road SW; and 3755 Meeks Drive SW zoned Planned Unit Development (P-U-D) was approved to amend conditions 17 and 18 to reduce the minimum square footage for apartments.

▪ **Staff Analysis**

(1) Is the proposed use suitable in view of the zoning and development of adjacent and nearby property?

The subject property is adjacent to residential and industrial uses. Recent development has trended toward light industrial development primarily due to the adjacent County Centennial Industrial Park. The proposal is suitable in light of the surrounding properties.

(2) Will the proposed use adversely affect the existing use or usability of adjacent or nearby property?

The proposed use will function similarly as the nearby industrial uses located within Centennial Industrial Park but will increase traffic along Mabry Road. The proposed buildings will be sufficiently buffered from adjacent and nearby residential uses.

(3) Is the proposed use compatible with the purpose and intent of the Comprehensive Plan?

It is staff's opinion that the proposal is inconsistent with the Comprehensive Plan. The Future Development Map for the City of Gainesville places the property within the Low-Medium Density Residential land use category, which includes areas containing or planned for single-family detached or semi-detached housing at densities ranging from two to four dwelling units per acre.

According to the Character Area map for the City of Gainesville, the subject property is located within the *Suburban Residential* Character Area. The vision for this area is to preserve older, stable residential subdivisions and encourage newer projects with smaller lot sizes, pedestrian infrastructure, and buildings patterned after traditional local housing, possibly containing a small

neighborhood-serving “village center”. As well, the quality community objectives state that housing choices should continue to be diversified to support a range of household incomes, sizes, types, but consist mostly of traditional single-family detached lots. In areas where natural features or sensitive environments are important, cluster housing or conservation subdivision design may be appropriate. Land uses allowed in the Suburban Residential Character Area include low-density residential, medium-density residential, multi-family residential, public / institutional, commercial, and parks / recreation / conservation, mixed-use.

(4) Are there substantial reasons why the property cannot or should not be used as currently zoned?

The property is currently zoned Light Industrial (I-I) in the County and is approved for the proposed use. The applicant desires to annex the property for sewer for the same use.

(5) Will the proposed use cause an excessive or burdensome use of public facilities or services, including but not limited to streets, schools, water or sewer utilities, and police or fire protection?

The change from County jurisdiction to City jurisdiction should not substantially affect public facilities or services at this time.

City water, sewer, and public safety services are currently available for the subject property and capacity is sufficient. Gainesville Fire Station #4 is located approximately 1.7± miles off of Memorial Park Drive which currently services adjacent and nearby properties.

Direct impacts to the school system should be limited as the proposed request is for industrial purposes.

According to the “Trip Generation Manual” as published by the Institute of Transportation Engineers, the estimated trips for the industrial use are 425 ± trips per weekday, 62 A.M. and 66 P.M. peak hour trips. This is based on the total square footage of the facility. The proposed industrial use will require improvements to Mabry Road which is a County maintained road. The applicant proposes to construct a new cul-de-sac at the entrance to the development to address truck traffic.

(6) Is the proposed use supported by new or changing conditions not anticipated by the Comprehensive Plan or reflected in the existing zoning on the property or surrounding properties?

The area has experienced industrial growth over the past 25 years due to the location of Centennial Industrial Park. While available parcels within the industrial park are limited, future industrial growth is expected due to the availability of water and sewer.

(7) Does the proposed use reflect a reasonable balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property?

Based on the Comprehensive Plan and the adjacent industrial uses, the proposal appears to reflect a reasonable balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property.

▪ **Staff Recommendation**

The Planning Division staff is recommending **conditional approval** of this annexation request with a zoning of **Light Industrial (L-I)** based on the Comprehensive Plan and the adjacent industrial uses.

Conditions

1. The approved uses for the property shall be limited to light industrial uses to include the proposed use, office, warehouse, storage, distribution, further processing, assembly and fabrication.
2. The proposed development shall be generally consistent with the standards depicted on the architectural elevation provided with the annexation application. Any zoning conditions adopted as part of this zoning ordinance that conflict with the applicant's narrative, concept plan and architectural renderings shall take precedence over the applicant's development standards.
3. The development shall require a minimum 50-foot wide evergreen planted buffer adjacent to all single-family properties located to the south and west. The trees shall be a minimum installation height of 8 feet and shall consist of a mixture of Arborvitae Green Giant, Japanese Cryptomeria, Eastern Red Cedar, and Holly. The location, number, spacing, size and type of trees planted shall be subject to Community and Economic Development Department Director approval in order to effectively screen the adjacent residential properties.
4. All access point design for the subject property shall require approval by the Gainesville Public Works Director and Hall County Public Works Department. All required access / traffic / sidewalk and improvements to Mabry Road associated with the proposed development shall be at the full expense of the developer/property owner.
5. An electronic message board sign shall not be permitted for the subject property.
6. An updated as-built boundary survey / plat of the subject property, indicating all improvements required for the proposed use, shall be recorded prior to obtaining a Certificate of Occupancy.

Excerpts from the January 12, 2021 PAB Meeting Minutes

Applicant Presentation: **Damon Santimauro**, 2314 Centennial Circle stated he has no problems with the conditions and agrees to working with staff on the 50 foot buffer in condition three. Mr. Santimauro said they have another facility nearby within the Centennial Industrial park with similar items so they have knowledge of the traffic flow. He asked the Board to consider their request to be annexed into city for sewer.

Project: 3521 Mabry Rd Gainesville GA 30504

Titan Steel Door's plan for developing the property, located at 3521 Mabry Rd, is for corporate office space and a metal fabrication plant to begin in spring 2021. Within the office space (~1,200 sq/ft) we look to operate accounting / HR / purchasing / design of product and other administrative functions. The plant portion (*phase 1 = ~30,000 sq/ft with a plan of phase 2 for an additional ~30,000 sq/ft as part of our growth*) of the project will allow us to expand our fabrication footprint for more equipment and employees. Some of the fabrication actions slated for this development include robotic welding, laser cutting, roll forming, stamping and machining.

Item of Business: **Public Hearing Item: February 2, 2021 Council Meeting**
Request from **Scott Stringer** to amend a portion of an existing Planned Unit Development (P-U-D) zoning totaling 57.29± acres located on the southwest side of the intersection of Mundy Mill Road and Millside Parkway and west of the intersection of Mountain View Road and Old Oakwood Road (a/k/a **0 Mundy Mill Road, SW and 0 Old Oakwood Road, SW**). **Ward Number: Four.** Tax Parcel Number(s): 08-043-000-078 and 08-024-005-363. **Request: Multi-family apartments and industrial / office / warehouse uses.**

Meeting Date: 1/28/2021

Purpose of Request:

To provide an overview of the following zoning request as presented at the January 12, 2021 Planning and Appeals Board Meeting:

The proposed zoning amendment is part of the 604.0± acres Mundy Mill mixed-use development that was originally approved in 2004. At this time, there are multiple phases of single-family homes and apartments built or under construction as well as the existing Mundy Mill Learning Academy elementary school.

The proposed zoning amendment includes only Pod's "E" and "I" to relocate and revise some of the approved planned uses. However, the overall number of residential units and nonresidential square footage will remain the same. Specifically, 300 multi-family apartment units originally intended for Pod "E" will be located to part of Pod "I". The previously approved office/commercial/retail uses within the same part of Pod "I" will be relocated to Pod "E" and changed to approximately 170,000 square feet of industrial/office/warehouse uses. The purpose of relocating the uses is to utilize the planned traffic signal at the intersection of Mundy Mill Road and Millside Parkway and to help entice commercial development along Mundy Mill Road. As well, the industrial/office/warehouse will be located to similar uses off of Old Oakwood Road. The total number of multi-family units within the PUD will remain unchanged from what was previously approved.

- **Applicant's Proposal and Background Information**

The proposed zoning amendment is part of the 605.0± acres Mundy Mill mixed-use development that was originally approved in 2004. Currently, the entire development is approved for 1,148 single-family homes, 1,235 condominiums, townhomes or apartments, 806,000 square feet of office/warehouse space and 885,000 square feet of commercial/retail space. At this time, there are multiple phases of single-family homes and apartments built or under construction as well as the existing Mundy Mill Learning Academy elementary school.

The proposed zoning amendment includes only Pod “E” (referenced as Comm-6), as well as, Pod “I” (referenced as Comm-1 and MF-5) on the master plan. The purpose of the request is to relocate and revise some of the planned uses. *The total residential units and nonresidential square footage will remain the same.*

Specifically, the previously approved multi-family units within Pod “E” will be located to part of Pod “I” for 300 multi-family apartments and outparcel commercial uses. Access within Pod “I” is proposed from Millside Parkway which is a shared internal road that serves the adjacent apartments and future commercial uses. The purpose of relocating the apartments is to better utilize the planned traffic signal at the intersection of Mundy Mill Road and Millside Parkway and to help entice commercial development along Mundy Mill Road.

The second part of the request involves relocating/changing some of the previously approved office/commercial/retail square footage from Pod "I" to Pod "E" for up to 170,000 square feet of industrial/office/warehouse uses. There are no immediate development plans for this parcel and preliminary access is shown from Old Oakwood Road and Mountain View Drive. According to the applicant, the industrial/office/warehouse will be better positioned adjacent to similar light industrial uses located off of Old Oakwood Road.

Pod	Current Use	Acres		Amended Use	Acres

▪ **Zoning History**

The following zoning actions have taken place in the immediate area during the last ten years:

2020 – A request by Smith, Gambrell & Russell, LLP to annex a 4.01± acres tract with a zoning of Light Industrial (L-I) located at 2500 West Park Drive was conditionally approved for an existing industrial warehouse use.

2018 – A request by Hydro Extruder, LLC to annex a 10.98± acres tract and a 11.29± acres tract with a zoning of Light Industrial (L-I) located at 2829 Mountain View Road and 2949 Old Oakwood Road was conditionally approved to expand the existing industrial use.

2016 – A request by Butler Property, LLC to amend a 92.06± acres tract located within the Mundy Mill development at 3035 Old Oakwood Road SW and 3523 Mountain View Road SW zoned Planned Unit Development (P-U-D) was approved to change the location of some of the single-family homes, multi-family apartments, commercial and industrial uses.

2011 – A request by Butler Property, LLC to amend the zoning conditions for a 65.425± acres tract located within the Mundy Mill development at 2975 Mountain View Road SW; and 3755 Meeks Drive SW zoned Planned Unit Development (P-U-D) was approved to amend conditions 17 and 18 to reduce the minimum square footage for apartments.

2011 – A request by ACR Property Services, LLC to amend the zoning conditions for a 105.51± acres tract located within the Mundy Mill development at 0 Mundy Mill Road; 2975 Mountain View Road SW; and 3755 Meeks Drive SW zoned Planned Unit Development (P-U-D) was approved to amend conditions 17 and 18 to reduce the minimum square footage for apartments.

▪ **Staff Analysis**

(1) Is the proposed use suitable in view of the zoning and development of adjacent and nearby property?

The proposed zoning amendment appears to be suitable based on the adjacent and nearby uses. Adjacent to Pod "I" includes undeveloped commercial property and multi-family apartments including the 53 West apartments (266 units) and The Exchange at Oakwood apartments (194 units). Uses adjacent to pod "E" include nonresidential uses such as Hydro Extruder industrial use, Garrison Trucking Company, Family Dollar retail and a hair salon. Residential uses are located off of Old Oakwood Road and Mountain View Road and within the Mundy Mill planned community.

The relocation of the multi-family uses and industrial/office/warehouse uses appear reasonable given the proposal is in keeping with the overall mixture of uses within the planned development and compliment the adjacent uses.

(2) Will the proposed use adversely affect the existing use or usability of adjacent or nearby property?

The proposed amendment should not adversely affect the use or usability of the adjacent or nearby property. The proposed uses will be relocated with no additional density or non-residential square footage. The overall development will function similarly as planned. Primary access is will continue to be from Millside Parkway and from Old Oakwood Road/Mountain View Road. A future traffic signal will be installed the intersection of Mundy Mill Road and Millside Parkway to better serve the apartments and commercial uses.

The proposed industrial/office/warehouse uses within Pod "E" will add traffic movements along Old Oakwood Road and Mountain View Road which are two lane roads and already experience a mixture of light industrial and residential traffic. The amount light industrial traffic created has not been determined as there is no end user identified for this pod. A future traffic study for this area may be warranted at such time.

To buffer the proposed industrial/office/warehouse uses from the adjacent residential uses, the PUD development standards require a minimum 30-foot wide perimeter buffer. In addition, there is currently a 100± vegetated buffer located between Pod "E" and the homes within the adjacent Mundy Mill subdivision.

(3) Is the proposed use compatible with the purpose and intent of the Comprehensive Plan?

It is staff's opinion that the proposal is consistent with the Comprehensive Plan given the property is located within a planned mixed-use development. The Gainesville 2030 Future Development Map places the Pod "E" portion of the subject property within the *Mixed-Use General* land use category and the Pod "I" portion of the subject property within the *Retail/Commercial* land use category. The *Mixed-Use General* land use category includes areas containing or planned for a mixture of land uses including office, neighborhood retail, and residential. The *Retail/Commercial* land use category includes commercial service activities such as grocery stores, banks, restaurants, theatres, hotels, and automotive related businesses.

According to the Character Area map for the City of Gainesville, the subject property is located within the *Suburban Residential* Character Area which includes low-density residential, medium-density residential, multi-family residential, public / institutional, commercial, and parks / recreation / conservation and mixed-use.

(4) Are there substantial reasons why the property cannot or should not be used as currently zoned?

The property is zoned Planned Unit Development (P-U-D) which is a site-specific zoning. Modifications to the proposed plan require the zoning to be amended. The proposed zoning

was originally approved in 2004 and has been amended six times over the past 16 years. The proposed changes appear to better position the existing approved uses given the location of the school site, multi-family uses and nearby light industrial uses without increasing density.

(5) Will the proposed use cause an excessive or burdensome use of public facilities or services, including but not limited to streets, schools, water or sewer utilities, and police or fire protection?

The proposed zoning amendment request should not cause an excessive or burdensome use of public facilities or services above what is currently approved for the property as the residential density and non-residential square footage will remain the same.

City water, sewer, and public safety services are currently provided within the development and have the capacity to serve the additional single-family homes. Gainesville Fire Station #4 is located approximately 2.5± miles away off of Memorial Park Drive.

According to the "Trip Generation Manual" as published by the Institute of Transportation Engineers, the estimated trips for the future industrial use are 1,185± trips per weekday, 172 A.M. and 184 P.M. peak hour trips. The estimated trips for the apartment uses are 1,995± trips per weekday, 165 A.M. and 201 P.M. peak hour trips.

The total number of residential units will remain unchanged but will be relocated adjacent to the existing multi-family development located south of Mundy Mill Road. Children are expected to attend the existing Mundy Mill Learning Academy elementary school within the Mundy Mill community and the new Middle School under construction off of McEver Road.

(6) Is the proposed use supported by new or changing conditions not anticipated by the Comprehensive Plan or reflected in the existing zoning on the property or surrounding properties?

The subject property is part of a planned mixed-use development originally approved in 2004. The proposed zoning amendment appears to still support the original scope planned for the mixed-use development. As well, the surrounding development located within the jurisdictions of Gainesville, Oakwood and Hall County appear to support the mixture of uses planned within the Mundy Mill development.

(7) Does the proposed use reflect a reasonable balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property?

Based on the Comprehensive Plan and the surrounding land uses, the proposed zoning amendment request appears to reflect a reasonable balance between the promotion of the public health, safety, morality, or general welfare and the right to unrestricted use of property.

▪ **Staff Recommendation**

The Planning Division staff is recommending **conditional approval** of this zoning amendment request based on the comprehensive plan and the adjacent uses. The existing zoning conditions are recommended with highlighted amendments to zoning conditions 17, 18 and 20 and the addition of zoning conditions 31 and 32.

Gainesville City Board of Education

28. As agreed to by the owner/developer, the 17.0 acre tract of land identified on the plat/site plan attached as Exhibit A shall be reserved for use as an elementary school site. At that time (or earlier at the owner/developer's discretion), and presupposing the School Board still wants the property for an elementary school, the owner/developer shall promptly convey to it, without charge. In the event the School Board does not secure a building permit and begin construction of an elementary school before December 31, 2012, then the developer shall retain all rights to development of the entire 17.0 acres tract as per the original terms of zoning approval except for this condition, and the School Board shall promptly convey marketable title to the property back to the owner/developer at no charge. Additionally, if no elementary school is actually constructed on this site by December 31, 2013, then the School Board shall return marketable title to the property to the developer without charge. The conveyance documents executed by the owner/developer to the School Board will contain these terms and requirements. This agreement to reserve the 17.0 acres tract shall not prohibit the owner/developer from including it in any plat it may prepare for its development of a single-family residential pod and also will allow the owner/developer to put on it any necessary utility or other storm water easements which may be required for the development as a whole, provided such improvements do not materially affect the Board's ability to use the site for a school. This agreement also shall not prohibit the owner/developer from earlier transferring the 17.0 acres site to the City to be held for the School Board, subject to the requirements of this paragraph. Finally, but for utility/drainage easements or right-of-way dedicated as part of the road system in or along the frontages of the Mundy Mill development, the owner/developer shall not be required to dedicate or give to the City of Gainesville any additional property incidental to this development. However, if the School Board fails to acquire this property, then the owner/developer shall convey three acres of land to the City for a public safety use.

Notwithstanding any of the foregoing, if at such time as the School Board has acquired the 17.0 acres site and is ready to begin feasibility assessments, and if the State Board of Education should determine that the site is not then suitable for use as a school under the applicable state standards, then the Board of Education may sell the 17.0 acres tract and retain the proceeds for use in purchasing an alternative site. Provided, however, that once an arms length transaction for a fair market value purchase of the site has been secured by the School Board, the owner/developer shall have a right of first refusal to repurchase the tract at the exact same purchase price. Provided further, that the proceeds from such sale must be expended on a new school site within 60 days of closing, otherwise it shall be remitted instantly to the owner/developer.

The City notes that this condition may be imposed only because the owner/developer has agreed to it.

Quality Enhancement

29. In order to further enhance and assure the quality of development, the City expects the developer shall perform/provide the following:

- Detailed landscape plan for parkway, subject to approval by the Department of Planning and Development.
- Reconstruction of Mundy Mill as focal point for community, subject to approval of the Georgia Department of Transportation.
- A minimum of two amenity locations shall be provided for the entire development of the detached single-family residential pods. At minimum the amenity sites shall include a pool house, swimming pool and playground.
- Sidewalks and streetlights throughout community.
- All products within the development shall contain exterior construction materials limitation; must use brick, masonry stucco, stacked stone, cedar shake, or hardiplank.
- Open space - 18%.
- Pedestrian trail plan (3.5± miles) connecting entire community.
- Parkway plan sidewalk width sufficient to create a bicycle lane.
- Every single-family home built on the subject property shall contain ceramic tiled bathroom floors.
- Every single-family home shall be built to accommodate at least one fireplace.
- No vinyl siding on any product within development excluding soffit areas.
- Each pod of townhouses and apartments will have its own amenities package.
- All underground utilities.
- Uniform mailboxes will be provided for each detached single-family residential pod.
- Uniform street signs will be provided throughout the development.

30. Along Balus Creek, the developer shall reserve for the City, by way of easement, a ten-foot strip of land for use as a bicycle path. At such time as the City or County constructs an element of its bike path system to which this easement might connect, the City and/or County, at its/their expense, may pave this strip. No development shall occur on the property which would interfere with the eventual construction of this path by the appropriate governmental entity, except for the boulevard which will cross the creek.

31. Prior to a land development permit application being submitted for the proposed Industrial/office/warehouse uses within Pod "E", the property owner shall be required to submit a site plan review application for a public hearing before the Planning and Appeals Board.

32. A Traffic Impact Study shall be required with the submittal of the site plan review application for Pod "E" if determined necessary by the Gainesville Public Works Department Director. All access point design for the subject property shall require review and approval by Hall County and the Gainesville Public Works Department Director. All required access/traffic/sidewalk improvements associated with the proposal or any additional improvements identified within the Traffic Impact Study, if determined necessary, shall be at the full expense of the property owner.

Excerpts from the January 12, 2021 PAB Meeting Minutes

Applicant Presentation: **Billy Powell**, 329 Oak Street stated he is speaking on behalf of the applicant and owner. Mr. Powell said the main point is there will be no additional units as they are simply relocating the product along with retail space. He stated the reason for relocating the 300 multi-family units to Mundy Mill Road is to increase marketability. Mr. Powell stated Atlanta builder Carter USA which is a six-decade old firm and builds a high quality product. Mr. Powell then reviewed the slides on the PowerPoint and said they intend to build 10 buildings.

FAVOR: None

OPPOSE: **Fiona Thorpe**, 4142 Pear Haven Lane, stated she is speaking on behalf of her mother Winnifred Thorpe that lives next to the proposed industrial warehouse use. Ms. Thorpe stated there are concerns about the warehouse portion of the new plan. She said her mother would like to know the type of industrial plant, any barriers installed to keep the noise and commercial traffic out. The other concern was if a traffic light would be installed at Millside Parkway on Mundy Mill which is a divided highway and would need a traffic light between the apartments, warehouses and the homes. The last concern mentioned by Ms. Thorpe was water runoff and absorption when it rains because there is an issue now and does not want any additional water problems.

Maclesha Bourne, 4233 Weeping Willow Drive, stated she is with the HOA representing Winnifred Thorpe. She said they wanted to know what provisions will be in place to prevent any possible industrial pollution that might affect the health of the surrounding community. She mentioned there are a lot of senior citizens that reside on Pear Haven Lane and wants everyone to be mindful of those citizens.

Planning and Appeals Board Comments: Chairman Carter stated they will get answers regarding the five issues mentioned. He also said to his knowledge from speaking with Mr. Tate there are no definite plans for the industrial pod and they would be required to come back before the Board for approval.

Mr. Tate showed the location in question on the map where Pear Haven Lane backs up to the industrial part. He said there is a natural buffer within the residential portion and with no specific plans staff has added two extra conditions to the thirty conditions. Mr. Tate read the new conditions and stated since there is no specific use for the industrial pod, the developers would need to come back before the Board for approval and public notification would be sent out allowing citizens to attend and there is no timetable for the industrial pod. Mr. Tate stated the last condition, depending on the use/size of it, may require further traffic study. Mr. Tate said any run-off issues are thoroughly studied during the plan review process which would be required once it has come back to this Board and approved. The stormwater engineer would review the plans during that process that could impact the adjacent properties. He said that it would be reviewed again and there are noise control measures, and buffer requirements in place to address the issue.

Rebuttal: Mr. Powell stated they will comply with any setback requirements and stormwater runoffs by working with the staff and the Community and Economic Development Department. The traffic signal at Mundy Mill and Millside Parkway has been approved. Mr. Powell said he is not aware of the time frame for it but the property owner has gotten approval for it.

There was a motion to recommend conditional approval of the zoning amendment request for multi-family apartments and industrial / office / warehouse uses within Planned Unit Development (P-U-D) with the following conditions:

Changes to existing zoning conditions 17, 18 and 20 and new zoning conditions 31 and 32 are highlighted below.

At no such time shall the maximum allowed square footage within those pods exceed what is specified on the approved concept plan. 24. A 100 foot wide buffer shall be provided against Balus Creek and all other blue-line streams. Gainesville City Board of Education

28. As agreed to by the owner/developer, the 17.0 acre tract of land identified on the plat/site plan attached as Exhibit A shall be reserved for use as an elementary school site. At that time (or earlier at the owner/developer's discretion), and presupposing the School Board still wants the property for an elementary school, the owner/developer shall promptly convey to it, without charge. In the event the School Board does not secure a building permit and begin construction of an elementary school before December 31, 2012, then the developer shall retain all rights to development of the entire 17.0 acres tract as per the original terms of zoning approval except for this condition, and the School Board shall promptly convey marketable title to the property back to the owner/developer at no charge. Additionally, if no elementary school is actually constructed on this site by December 31, 2013, then the School Board shall return marketable title to the property to the developer without charge. The conveyance documents executed by the owner/developer to the School Board will contain these terms and requirements. This agreement to reserve the 17.0 acres tract shall not prohibit the owner/developer from including it in any plat it may prepare for its development of a single-family residential pod and also will allow the owner/developer to put on it any necessary utility or other storm water easements which may be required for the development as a whole, provided such improvements do not materially affect the Board's ability to use the site for a school. This agreement also shall not prohibit the owner/developer from earlier transferring the 17.0 acres site to the City to be held for the School Board, subject to the requirements of this paragraph. Finally, but for utility/drainage easements or right-of-way dedicated as part of the road system in or along the frontages of

the Mundy Mill development, the owner/developer shall not be required to dedicate or give to the City of Gainesville any additional property incidental to this development. However, if the School Board fails to acquire this property, then the owner/developer shall convey three acres of land to the City for a public safety use.

Notwithstanding any of the foregoing, if at such time as the School Board has acquired the 17.0 acres site and is ready to begin feasibility assessments, and if the State Board of Education should determine that the site is not then suitable for use as a school under the applicable state standards, then the Board of Education may sell the 17.0 acres tract and retain the proceeds for use in purchasing an alternative site. Provided, however, that once an arms length transaction for a fair market value purchase of the site has been secured by the School Board, the owner/developer shall have a right of first refusal to repurchase the tract at the exact same purchase price. Provided further, that the proceeds from such sale must be expended on a new school site within 60 days of closing, otherwise it shall be remitted instantly to the owner/developer.

The City notes that this condition may be imposed only because the owner/developer has agreed to it.

Quality Enhancement

29. In order to further enhance and assure the quality of development, the City expects the developer shall perform/provide the following:
- Detailed landscape plan for parkway, subject to approval by the Department of Planning and Development.
 - Reconstruction of Mundy Mill as focal point for community, subject to approval of the Georgia Department of Transportation.

 - Uniform street signs will be provided throughout the development.

30. Along Balus Creek, the developer shall reserve for the City, by way of easement, a ten-foot strip of land for use as a bicycle path. At such time as the City or County constructs an element of its bike path system to which this easement might connect, the City and/or County, at its/their expense, may pave this strip. No development shall occur on the property which would interfere with the eventual construction of this path by the appropriate governmental entity, except for the boulevard which will cross the creek.
31. Prior to a land development permit application being submitted for the proposed Industrial/office/warehouse uses within Pod "E", the property owner shall be required to submit a site plan review application for a public hearing before the Planning and Appeals Board.
32. A Traffic Impact Study shall be required with the submittal of the site plan review application for Pod "E" if determined necessary by the Gainesville Public Works Department Director. ZONING AMENDMENT REQUEST FOR MUNDY MILL PUD

The proposed zoning amendment would allow already approved multi-family units within the Mundy Mill PUD to be constructed on a portion of the current Comm-1 parcel as depicted on current master plan.

Current zoning for Mundy Mill PUD is shown on the attached concept plan.

With respect to current zoning, we desire to relocate a portion of the existing approved multi-family density for the Mundy Mill PUD from the current multi-family parcels to a portion of parcel Comm-1 which fronts Mundy Mill Rd. After careful evaluation it is believed that there is demand for multifamily product in this area, but the existing multi-family parcels lack the necessary visibility and access needed to put those parcels into production for residential uses at this time. The portion of Comm-1 that is being requested to allow for multi-family development has already been prepped for development and benefits from an existing road, with pending traffic signal, and visibility on a major thoroughfare. This parcel is primed for development and can be put into production much earlier, bringing more energy to the PUD and increasing the viability for retail development on the parcel as well.

Carter seeks to develop multi-family units on a portion of the Comm-1 parcel, while maintaining a significant portion of the parcel for commercial or retail uses that would front Mundy Mill Rd. All units Carter seeks to build are already entitled under the Mundy Mill PUD and this Zoning Amendment seeks to allow a portion of these exiting multi-family units to be constructed on a more desirable development parcel within the PUD. Allowing some existing multi-family units to be constructed on a portion of this parcel can improve residential density in a manner that we believe will make the retail outparcels along Mundy Mill more enticing to retailers and should help move these outparcels more quickly and for higher land values based on the increased unit count in this portion of the PUD.

With the relocation of a portion of the multi-family units there would be increased utilization for the traffic signal planned for the intersection of Mundy Mill Rd. and Millside Pkwy. The presence of this light would also increase the marketability for the retail along Mundy Mill, providing easier access to the outparcels.

We also ask that the current zoning of the MF-5 parcel be amended so as to accommodate industrial/office/warehouse uses which are more consistent with nearby parcels. Design Controls for the impacted parcels are shown on exhibits to the Application for Zoning Actions.

In summary, we believe these requested changes will provide a significant benefit to the PUD, the City of Gainesville and marketability for retail along Mundy Mill Rd. The total number of multi-family units within the PUD will remain unchanged from what has previously been approved.

Based on these proposed changes, zoning conditions will need to be modified to provide for the following:

Attached single-family condominiums, fee simple townhomes or apartments shall not exceed 1,235 total units to include 460 units for Pod's J and K and 775 units for all other Pods and approved areas within Pods that allow attached single-family condominiums, fee simple townhomes or apartments.
