Work Session Agenda Request

Item Created: November 1, 2022

Date Submitted: November 2, 2022

Final Approval Date: November 8, 2022

Presenter: Brandon Ellis, Fire Chief
Jeremy Perry, Chief Financial Officer

Item of Business: Resolution: PNC Bank, National Association - Master Lease Purchase Agreement

Meeting Date: November 10, 2022

Purpose of Request:

To begin the process of purchasing one Pierce Arrow XT Tandem axle Heavy Rescue and one Pierce Arrow XT Pumper for the Gainesville Fire Department. Due to the amount of funding that is required, along with the useful life of the rescue and pumper, entering into a master lease purchase agreement would allow for other capital projects to be purchased in conjunction with the rescue and pumper.

Facts & Issues / History & Background:

The rescue will replace an existing front line emergency response rescue. Age and continued wear and tear continues to increase maintenance and repair costs. The pumper will be placed at the future station five. With the buildout of the pumper estimated to be 32-36 months, it is crucial that the City orders this now so it can be placed into service when the station opens.

This will be the third lease with PNC Bank.

The Master Lease Purchase Agreement is for five years. The estimated amount to be financed is \$2,139,188. Loose equipment to be added to the rescue and pumper will be budgeted during the FY2024 budget process.

Department Recommendation:

Gainesville Fire Department, along with Financial Services, recommends the City of Gainesville enter into a five year master lease purchase agreement with PNC Bank, National Association.

Gainesville to Hometown

A. Case Statement:

United Way of Hall County has a mission to unite people, organizations and resources to improve lives in our community. We prioritize community collaboration because we know it is the formula for impactful and lasting change. Through our partnerships in the Gainesville community, we are able to identify needs, grow opportunities, and create solutions in ways that we never could alone.

United Way of Hall County serves residents of our community who are in or at risk of financial instability and nonprofits who are aligned with the Community Game Plan. We strive for Hall County to be a community where all reach their potential, are healthy, and achieve self-sufficiency.

B. Funding Request/ Project Description:

Gainesville to Hometown is a program aimed at meeting the long-term needs of the homeless population in the city of Gainesville. Because our community is rich in human service resources, we have become a hub for those facing homelessness. Hospitals, behavioral health hospitals in particular, along with jails, and other nonprofits in surrounding areas are discharging their clients with no housing to Gainesville in hopes they will find housing once they get here.

Unfortunately, our community lacks the capacity to support the growing size of this population in need. These individuals are now displaced from the support system they had in their hometown. Remaining with a support system gives people the best opportunity to find stability and self-sufficiency within their lives.

Gainesville to Hometown will support peoples' endeavor to get back to their hometown where they have a support system in place. Financial support will be utilized to purchase necessary transportation for the program participants. The participants will also receive case management services to arrange support in their hometown. The financial support and case management will come from the Compass Center at United Way of Hall County.

This program will require collaborative efforts from all entities in Gainesville City who support the homeless population. These community partners will be referral sources for the Gainesville to Hometown Program. Referrals will be individuals facing homelessness in Hall County who have a desire to return to the town where their support system lives.

United Way of Hall County is requesting \$50,000 to support the Gainesville to Hometown Program.

12-month timeline for the program/funding request.

1st quarter: Host meetings at United Way of Hall County to educate community partners on the program and the referral process. Develop specific referral criteria and the template for case management work within the program. Research and explore cost-efficient ways to provide transportation for recipients. Identify any geographical limitations.

2nd quarter: Start receiving referrals from a select, limited number of community partners.

3rd quarter: Open up referrals to all collaborating agencies.

4th quarter: Review program successes and limitations. Contact program participants for updates and feedback.

C. Project Management:

Abigail Turner, MSW, will oversee the project day to day; with weekly project updates to Jessica Dudley, President. Abigail will work closely with clients and community partners to identify and overcome obstacles in day-to-day operation and provide case management services to clients.

D. Evaluation/Outcomes

1. Number of referrals to the Gainesville to Hometown program
2. Number of people from the homeless population who receive transportation to their hometown via the program
3. Number of transportation fares purchased
4. Updates from service providers or families at destination locations

RESOLUTION BR-2022-

SARDIS ROAD UTILITY RELOCATION PROJECT ACQUISITION OF EASEMENTS

WHEREAS, the City of Gainesville Department of Water Resources operates a sewage collection, treatment, and disposal system that serves the general public; and

WHEREAS, Hall County, Georgia, by and through its Board of Commissioners of Hall County, Georgia has authorized the acquisition of land and easements for the construction of the Sardis Road Connector Project (the “Road Project”); and

WHEREAS, the acquisition of the land and easements for the Road Project by Hall County has caused it to be necessary that the City of Gainesville acquire easements for the relocation and installation of sewer infrastructure; and

WHEREAS, the City of Gainesville Department of Water Resources has determined to design and construct the Sardis Road Utility Relocation Project so that the City of Gainesville Department of Water Resources can continue to provide sewage collection, treatment, and disposal services, which services would otherwise be terminated by the acquisition and construction of the Hall County Road Project; and

WHEREAS, in order to maintain the projected schedule of construction of the Sardis Road Utility Relocation Project, the City of Gainesville has determined that it is necessary to acquire certain land and easements immediately and without delay, such project being in the public interest of the citizens of the City of Gainesville and Hall County; and

WHEREAS, Article 9, Section 2, Paragraph 5 of the Georgia Constitution authorizes municipalities to exercise the power of eminent domain for any public purpose; and

WHEREAS, pursuant to Section 22-13-140 of the Official Code of Georgia, the City of Gainesville is authorized to acquire land, in fee simple, or in any lesser interest, under the procedures set forth in Article 1 of Chapter 3 of Title 32 of the Official Code of Georgia; and

RE: Uneconomic Remnant
Located 569 Mulberry Lane
Gainesville, Hall County, Georgia

Dear Mr. Hayes:

Regarding your request for a valuation and analysis of the sale of an Uneconomic Remnant located at 569 Mulberry Lane, may I advise that I have made a personal inspection of the property and analyzed the pertinent data necessary to form an opinion of value.

The project is the sale of a tract of uneconomic remnant to the adjoining owners. This will allow the land to be utilized at its Highest and Best Use as assemblage. The remnant is a 1.80 acre tract that is highly irregular in shape with severe terrain characteristics and contains an underground sewer easement in favor of the City of Gainesville. The site is unbuildable as a stand alone parcel.

The adjoining property owners of 561 Park Street Place are Mark C. Venton and Staci B. Venton. The use of this property by these owners would allow them to utilize the uneconomic remnant as additional property to their primary residence.

It is my opinion that the subject property has a current Fair Market Value of \$ 13,000.

Thank you for the opportunity to be of service in this matter.

Respectfully,

W. McRae Greene

Section 4- Reporting Disclosure

This report is intended for the use of the client only. A general data book was not prepared and all the data necessary to properly understand this report is included herein.

Purpose and intended use of the appraisal:

The purpose of this appraisal is to estimate the Fair Market Value of the Fee Simple Interest in the property as an unimproved parcel and to estimate the contributory value of the underlying land to the adjoining owners to its Highest and Best Use.

Client and intended use of the appraisal:

This appraisal is being prepared for City of Gainesville. It is understood that this report will be used to determine the Fair Market Value of the sale of property under the narrow strip ordinance.

State and reference a definition of the value to be estimated:

The following definitions are those as stated in The Appraisal of Real Estate, Eleventh Edition, Appraisal Institute, p.23, 137 & 146

Market Value may be defined as:

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this information are the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- a) Buyer and seller are typically motivated:
- b) Both parties are well informed or well advised, and each acting in what they consider their best interest:
- c) A reasonable time is allowed for exposure in the market:
- d) Payment is made in terms of cash in United States dollars or in terms of finance arrangements comparable thereto: and
- e) The price represent the normal consideration for the property sold, unaffected by special or creative financing or sales concessions granted by anyone associated by anyone with the sale.

Fee Simple Ownership may be defined as:

“absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power and escheat.”

Easement may be defined as:

“An easement is usually the right to perform a specific action on a particular parcel of property or a portion thereof, by the grantees who do not hold the underlying fee.”

Exposure time:

Assumed to be adequate, sufficient, and reasonable. Effort for exposure is assumed to be adequate, sufficient and reasonable. Both items are assumed to precede the effective date of value. The time frame is an integral part of the appraisal analysis and is based on one or more of the following:

- a) Statistical information about days on the market
- b) Information gathered through sales verification; and
- c) Interviews of market participants

Appraisal Type

This is an appraisal of unimproved and improved commercial property with the land only being valued. This appraisal includes an analysis of a proposed land sale.

Scope of Assignment

Extent and process of collecting, confirming and reporting all data - all data, which was considered to be pertinent to the valuation of the subject property was gathered. This included, but was not limited to, local and neighborhood economic trends, conformity of land uses, zoning and market sales data. These sales were researched to determine factors that would influence the sales price and their comparability to the subject. These sales were verified through the buyer, seller or other knowledgeable parties, and/or including the public records. The five step process is utilized to estimate just and adequate compensation for the acquisition.

Describe any special limitations

All limiting conditions and assumptions that affect the analysis and conclusions are included in this report.

Section 5 - Local Government Requirements

Zoning

Classification:	R-1 (Residential Single Family)
Governmental Jurisdiction:	City of Gainesville
Permitted Uses:	Access to Adjoining Properties
Restrictions:	Public Right of Way

Section 6 - Property Description

The subject property is a highly irregular remnant tract containing 1.80 acres and commonly known as 569 Mulberry Lane. It fronts on Mulberry Lane and Park Street Place. The terrain is severe and when combined with the highly irregular shape and utility easements, renders the property unbuildable. It has value only as it would contribute to the adjoining owner.

Section 7 – Highest and Best Use

Four major criteria are considered in a Highest and Best Use analysis. These are the physical attributes of the property; the legal restrictions attached to the property (zoning); the most financially feasible use for the property; and the use that will provide the maximum financial return to the owner

The Highest and Best Use for the subject property is to provide additional property and access to the adjoining properties.

Section 8 - Valuation

APPRAISAL PROCEDURE

In estimating the present fair market value of the subject property all approaches to value were considered. Since the highest and best use indicates that the highest and best use for valuation is as unimproved and available for development, the sales comparison approach to value will be utilized to value the land only. This is the approach that compares the subject property to other similar properties that have sold or currently offered for sale. These properties are compared to the subject and are adjusted based on their dissimilar characteristics.

LAND VALUATION

In order to estimate the market value of the subject, consideration is given to all sales in the general market area for the past three years of vacant or under improved tracts. All of the sales are considered generally comparable and relevant to the valuation of the subject property.

Valuation Summary

COMPARABLE SALES SUMMARY

No.	Address	Sales Date	Size/Acres	Price	Price/Acre
1	Laurel Lane	12/15/2020	0.32	\$95,000	\$30,400
2	896 Cherokee Rd	3/20/2018	0.42	\$110,000	\$46,200
3	1153 Parkhill Dr (2 building lots)	7/31/2020	1.14	\$225,000	\$197,368
4	Riverside Dr (6 individual sales)	1/22/2022	0.49	\$150,000	\$73,500
5	Summer Lane (unbuildable)	3/26/2021	0.20	\$28,300	\$5,660
6	1080 Springdale Rd (unbuildable)	7/30/2019	0.11	\$7,500	\$825

The comparable sales as summarized above, are similar to the subject property due to size and location. Based on these considerations, it is our opinion that the Fair Market Value of the subject property “as if unencumbered with suitable topography to reasonably be developed” is estimated to be based on \$ 70,000 per acre. For assemblage, it is estimated that it would contribute 50% of the indicated value of Tract 1 or \$35,000 per acre. Also, it is estimated that it would only contribute a minimal amount of 10% of the assemblage value for Tract 2.

The subject property is a 1.80 acre tract that is highly irregular in shape. There are two areas within this tract. One containing 0.21 acres along the frontage of the adjoining property that would contribute value due to the location. It however is not a stand-alone parcel and would be valued as discounted for assemblage. The remaining tract containing 1.59 acres has severe terrain characteristics, a sewer line easement, and highly irregular shape. It has little value in the market with use only as a buffer between existing properties. It only has nominal value as a percentage of the normal assemblage estimate.

Tract 1

0.21 acres @ \$35,000/acre = \$ 7,350

Tract 2

1.59 acres @ \$ 3,500/acre = \$ 5,565

\$ 12,915 or **\$ 13,000**

18. It is a condition of the appraisal that any marketing of the subject property would expressly require effective and aggressive sales methods and techniques, reasonable pricing, market exposure, and coverage, and unless stated any suggested improvements or repairs completed in order to market the property.

19. The subject is specifically conditioned on present market conditions, any changes may affect the market value stated.

20. Unless otherwise stated in the report, the existence of hazardous material, which may or may not be present on the property, was not observed by the appraiser. The appraiser has no knowledge of the existence of such materials on or in the property. The appraiser however **is not qualified** to detect such substances. The value is predicated on the assumption that there are no such materials on or in the property that would cause a loss in value. No responsibility is assumed for any such conditions or for any expertise or engineering knowledge necessary to discover them. The client is urged to retain an expert in this field, if desired.

21. It is specifically noted as a condition of the appraisal that, unless found otherwise, the furnished plans for the project, furnished square foot or metric areas, owner furnished information, as well as county tax record information regarding the subject is believed to be reliable.
